No other Hollywood star has been so closely linked with cars and bikes, from the 1968 Ford Mustang GT Fastback he drove in Bullitt (in the greatest car chase of all time) to the Triumph motorcycle of The Great Escape. McQueen's Machines gives readers a close-up look at the cars and motorcycles McQueen drove in movies, those he owned, and others he raced. With a foreword by Steve's son, Chad McQueen, and a wealth of details about of the star's racing career, stunt work, and car and motorcycle collecting, McQueen's Machines draws a fascinating picture of one outsized man's driving passion. Now in paperback.

[Motorcycle Accident Cause Factors and Identification of Countermeasures](#) SAE International

Although not the first V-8 engine ever produced, Henry Ford's side-valve V-8, launched in 1932, certainly qualified as the first mass-produced V-8 sold to the public. Because of Henry Ford's stubbornness, the first versions were less than ideal. The technology was in its infancy and cost-cutting measures limited the output and reliability of the early models. Over time, however, the "Flattie" became the go-to powerplant for a whole generation of new hobbyists who were called "hot rodders." The engine maintained its position in the hobby well into the 1950s, even when more modern overhead-valve designs started coming out of Detroit. It's hard to overstate the impact that this simple little engine had on a whole generation of enthusiasts. Even today, people choose a flathead for period-correct builds over far more powerful options. The style and sound of a modified flathead is an iconic part of American history. In Ford Flathead Engines: How to Rebuild & Modify, veteran author Tony Thacker and flathead guru of H&H Flatheads, Mike Herman, take you step-by-step through rebuilding a vintage flathead. One of the most important steps is to actually find a good, usable core; many have been sitting for a very long time and the engine design is prone to cracking. Running changes are also an important consideration when selecting a core, and include cooling system, ignition, and transmission mount. After you have selected a core, Thacker and Herman take you through the entire process of a rebuild, including teardown, parts inspection, machine shop processes, replacement part selection, re-assembly, start up, and break-in. Also covered is a unique performance build completed at the H&H shop for legendary race car team manager and all-around enthusiast Ray Evernham. It all adds up to more than 500 color photos and insider tips on building what could be called the most iconic engine ever built, the Ford flathead V-8.

Best in Show is a collection of photographs of well-groomed and award-winning dogs by New York City-based photographer Dolly Faibyshev. The images from the Westminster Kennel Club Dog Show and beyond focus on the unique—and often humorous—relationship between each dog and their handler. Dolly Faibyshev focuses on kitsch, irony, and the larger than life human and canine characters that make up Best in Show. The result is a colorful, vibrant, campy, and satirical take on this specific slice of Americana. • The colorful, closely cropped juxtapositions of each coiffed canine contestant and their dedicated human are both humorous and charming. • Sure to delight fans of all breeds of dogs • A universal and ideal book for all canine lovers with a sense of humor Best in Show captures a specific subculture of dog devotees primarily from the infamous Westminster Kennel Club Dog Show at Madison Square Garden in New York. • A perfect book for anyone who is completely and totally obsessed with dogs and the Westminster Kennel Club Dog Show • Photographers and contemporary art lovers will also love this celebration of Dolly Faibyshev's work • Great for fans of The Dogist: Photographic Encounters with 1,000 Dogs by Elias Weiss Friedman, Dogs by Lewis Blackwell and Tim Flach, and Underwater Dogs by Seth Casteel

[Textiles and Their Use in Microbial Protection](#) Penguin

In 2011, at the height of tension between the British and Iranian governments, travel writer Lois Pryce found a note left on her motorcycle outside the Iranian Embassy in London:... I wish that you will visit Iran so you will see for yourself about my country. WE ARE NOT TERRORISTS!!! Please come to my city, Shiraz. It is

very famous as the friendliest city in Iran, it is the city of poetry and gardens and wine!!! Your Persian friend, Habib Intrigued, Lois decides to ignore the official warnings against travel (and the warnings of her friends and family) and sets off alone on a 3,000 mile ride from Tabriz to Shiraz, to try to uncover the heart of this most complex and incongruous country. Along the way, she meets carpet sellers and drug addicts, war veterans and housewives, doctors and teachers - people living ordinary lives under the rule of an extraordinarily strict Islamic government. Revolutionary Ride is the story of a people and a country. Religious and hedonistic, practical and poetic, modern and rooted in tradition - and with a wild sense of humour and appreciation of beauty despite the comparative lack of freedom - this is real contemporary Iran.

Futuristic transportation is a concept that has provided a constant source of fascination for scientists, designers and artists. Using a range of illustrations, original diagrams, photographs and historical explanations, Future Tech explores the key developments at the forefront of vehicular technology, ranging from current advancements, such as hydrogen cell cars to projects still in early stages of development, such as jet paks, flying trains and wave piercing catamarans. The technologies are examined thoroughly and their advantages and disadvantages clearly assessed. Future Tech is a compilation of material which explores and defines the way the future is imagined in the present, and tries to answer that ever more pressing question of how we move forward.

Suspension is probably the most misunderstood aspect of motorcycle performance. This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.

Textiles and Their Use in Microbial Protection: Focus on COVID-19 and Other Viruses provides readers with vital information about disinfection mechanisms used in textile applications in the fight against dangerous microbes and viruses. KEY FEATURES: Introduces the basics of textile materials used for medical applications Features key information on virology, characterization, indication, and passivation of COVID-19 Describes UV, photocatalysis, photooxidation, application of TiO2, copper-based viral inhibition, and activated carbon Discusses antiviral finishes for the protection against SARS-CoV-2, particle penetration in dense cotton fabrics under swollen state, and the impact of moisture on face masks and their designs Aimed at textile and materials engineers as well as readers in medical fields, this text offers a comprehensive view of fundamentals and solutions in the use of textiles for microbial protection.

Cycle World Bringing Thermoelectricity into Reality

Few activities offer more fun and excitement than motorcycling, but to get the most out of it, there's a lot you need to know. From buying and maintaining a bike, to riding safely, to finding great places to ride, Motorcycling For Dummies puts you on the road with savvy and style, whether you're male or female, new to riding or an experienced vet. This fun, practical, and informative guide gets you geared up and ready to ride! You'll get plenty of help in selecting the right bike and step-by-step instructions on performing routing maintenance tasks. You'll also find out how to develop safe riding habits and, maybe most important of all, fit in with the biker crowd. Plus, this indispensable resource shows you advanced riding techniques, offers travel tips for long-distance rides, and even helps you get your kids started in motorcycling. Discover how to: Buy a new or used bike Select safe, tough riding gear, from helmet and jacket to boots and pants Get proper training and learn essential riding skills Insure your bike Pass even the toughest licensing test Try your hand at cruising, touring, sports biking, and more Get involved in motorcycle clubs and events Deal with dangers on the road Customize your bike to improve both style and performance Complete with lists of great biking events, organizations, people, and even movies, Motorcycling For Dummies gives a whole new meaning to the term "easy rider."

The Perfect Motorcycle Legacy Consulting Firm, INC

Clean up on aisle 4! Have you ever been in a moment where you spilled something out of your mouth and it's all over the place and now you can't call it back? Yes! Clean up on Aisle 4! This read will cause you to first, take a hold of your thoughts, and second, cause you to taste your words before you serve them to someone else. Angella's personable experiences, from childhood to now, with words spoken to her or about her have put her in the seat with pen and paper to write. There are many challenges she faced: loss of parents, crippling disease, and more. Through her writing, you can take a ride down the path and hear the experiences of the hills and valleys that could have caused many words to be released from her, but with the help of the Holy Spirit, she chose a different course of action. Take a read and set your heart, mind, and mouth...and PLEASE BE CAREFUL WHAT YOU SAY! My prayer for every reader is to have a moment where their brain and senses come alive to the knowledge of the fact that our words carry weight.
