If you are thinking about cleaning up and

using that old South Bend Lathe that you inherited from your grandfather (the one that has been sitting in your garage for the last 20 years), this collection of maintenance tips will help you get that beautiful piece of iron back into service. "Basic Maintenance for the Vintage South Bend Lathe" is a starting "how-to" guide for keeping all vintage South Bend Lathes in

---

good working order. The information is applicable to all models ranging from the 9" workshop series to the industrial versions which went from a 10" swing all the way up to 16". The manual will help educate new machine operators and enthusiasts on the correct procedures to set up, clean, lubricate, and adjust all of the critical features of the lathe. The manual is 70 pages, fully illustrated

with many B&W photographs and diagrams plus step-by-step instructions on the proper methods for keeping the machine in good working order. In addition, lubrication charts, sources of supply and other basic reference material is included. Even though South Bend ceased production of these fine quality lathes years ago, there are still thousands of serviceable lathes

sitting out there in home shops, small businesses, schools and machinery dealers. To support owners of these vintage machine tools we also offers two separate rebuild manuals plus various rebuild parts kits for the South Bend Lathe so please check out our other items on Amazon. The two rebuild manuals (sold separately) are: "A Guide to Renovating the South Bend Lathe 9"

---

Model A, B & C Plus Model 10k" and for the larger industrial lathes: "A Guide to Renovating the South Bend Lathe Models 10L 13" 14-1/2" & 16". If you have a SouthBend lathe, then any of these guides will be extremely helpful in getting your machine back into service. The Municipal Journal Haynes Manuals N. America, Incorporated Training Circular (TC) 3-09.81, "Field Artillery Manual Cannon Gunnery,"

sets forth the doctrine pertaining to the employment of artillery fires. It explains all aspects of the manual cannon gunnery problem and presents a practical application of the science of ballistics. It includes step-by-step instructions for manually solving the gunnery problem which can be applied within the framework of decisive action or unified land operations. It is applicable to any Army personnel at the battalion or battery responsible to delivered

field artillery fires. The principal audience for ATP 3-09.42 is all members of the Profession of Arms. This includes field artillery Soldiers and combined arms chain of command field and company grade officers, middle-grade and senior noncommissioned officers (NCO), and battalion and squadron command groups and staffs. This manual also provides guidance for division and corps leaders and staffs in training for and employment of the
