In the first book, *My Battle I*, I talk about the incidents that happened to me before I settled down in a small town called Kamsack, Saskatchewan. Here in *Battle II*, I describe my life as a real battle field, which I had to dominate. In either book, my message is the same: To survive, you have to establish your own way of life; otherwise, you could become pessimistic about your life. Once you

are here on this planet, you had better be optimistic and active, but how can you be like that? Well, change your mind with your deep reasoning, open self-discussion, and truth. This kind of task is considered as a battle and also exciting because you can have a chance to be re-born with a new mind.

When Ruby McMillan's husband announces one morning that he's dumping her for another woman, she's unable to decide which indignity stings the most: the dissolution of their eighteen-year marriage or the deflation of her white-chocolate soufflé with raspberry Grand Marnier sauce. With only royal icing holding her together, Ruby still manages to pick herself up and move on, subsidizing her income with an extra job as a baking instructor, getting a "my-husband's-gone" makeover, and even flirting with her gorgeous mortgage broker, Jacob Salt. For as long as she can remember, Ruby has done what's practical, eschewing far-fetched dreams and true love in favor of stability. But suddenly single again at the age of forty-four, she's beginning to discover that life is most delicious when you stop following a recipe and just live.

Very little technical help is available to small agencies that are responsible for managing these roads. Gravel road maintenance has traditionally been "more of an art than a science" and very few formal standards exist. crown? What is too much? What causes corrugation? The information is as nontechnical as possible without sacrificing clear guidelines and instructions on how to do the job right.
