Prakashan
The present series
LEARNING
ELEMENTARY
SCIENCE for
Classes 6-8 follows
the concept of
"Learning without
burden" as a guiding
principle. Science has
to be understood as a
lively and growing
body of knowledge.
The children have to
learn the dynamism
of science by
observing things
closely, recording
observations, and
when drawing
inferences from what
they observe.

Observations are to be made by performing such activities which can be easily performed by the children, often without costly equipment, and even at their homes. When science is learned in this manner, the children would learn the ways of nature and start appreciating it. The salient features of this series are :

- It is in strict accordance with the latest N.C.E.R. T. syllabus.
- It encourages the learning of science through activities. The activities provide hands-on experience to the learners. All the activities and experiments are class-tested.
- The language used is simple and lucid.
- It explains the laws and principles of science in a clear and concise way.
- The series has updated information along with interesting facts in the form of 'Did you know?'
- It contains Oral Questions in between the text and at the end of each chapter.
- Exercises and Activity I Project are given at the end of each chapter. Exercises contain Multiple Choice Questions, Fill in the Blanks, True and False, Match the Statements, Short Answer Type Questions, etc.
- Activity I The project contains Activities, Projects, Charts, Models, Class Response, Visit, Quiz, the topic for Seminar/Debate. The assessments develop skills of comprehension of concepts, enhance knowledge and application of what is learned.
- Life skills relevant to the chapters are given at the end of the chapters.
- Two Model Test Papers are given at appropriate places, for Half Yearly Examination and Yearly Examination.
- Four Periodic Test Papers are given at appropriate places for Periodic Assessment.
- Learning Elementary Science becomes a joyful experience with a number of clearly labeled illustrations and learner-friendly simple language.

Chambers's Journal of Popular Literature, Science and Arts HIGH DEFINITION BOOKS
 "DSSSB Trained Graduate Teacher Social Science

Written Exam" has been designed to give the complete coverage of the syllabus as per the exam pattern. The syllabus in this book is divided into 6 Units and further into chapters that help learners to understand each concept of each subject easily.

Theories and MCQs have been provided in the book in a Chapter wise manner in which every concept, doubt and query can be cleared simultaneously without putting any extra efforts moreover due to this benefit candidates can do revision hand-to-hand. The level of the questions are
