Maths Practice Test Papers, Age 7-11 Letts and Lonsdale

In the past few years, the way we think about assessment has undergone a revolution. From the re-organisation of qualifications and examinations at national level (including removing National Curriculum levels at secondary school) to the increasing focus on active research to develop feedback strategies with a measurable impact, assessment has never been so much at the forefront of educational thought. While previously assessment was bound to the curriculum, now there is a demand for schools to develop assessment systems that are merely driven by it. Despite raising serious questions and challenges, these dramatic changes provide a reason for teachers to evaluate their practice. Simultaneously, the nature of CPD has been reinvigorated in the 'digital age', with teachers galvanised by online resources, Twitter and educational blogs. The result? Teachers can take their development into their own hands, and re-professionalise teaching! Bringing together these two movements, this book provides an opportunity for teachers to grasp what formative assessment means, how it complements the curriculum when used effectively, how to employ it in their classroom and school, and how they can improve their assessment systems and practice within the classroom. Divided into two parts, train yourself and teach others, this book will dispel concerns, and help teachers and school leaders to embrace and excel in all areas of formative assessment!

Check your child's progress with these new format National Curriculum tests. These practice tests are designed to check children's level of understanding at the end of Year 3. Each pack comes with two complete practice tests and an accompanying Guidance and Mark Scheme booklet. These practice tests have a similar look and feel to the new Key Stage 2 Mathematics test, to help familiarise children with both the content and format of these tests. The tests can be used to track progress in school, but can also be used in the home. The Guidance and Mark Scheme provides advice for parents and carers on how to use the tests and how to support children in preparing for them. Scholastic National Curriculum Revision Year 3 is also available, offering children the opportunity to check their progress across the Mathematics curriculum and to develop the skills they need for these national tests.
