Education policies should drive success and equity but in many countries they are failing to do so. Situating the cases of England and Australia within broader global policy trends, this book critically analyses what has gone wrong. The authors draw on extensive research in education to review the impact of multiple policies on students, teachers and schools, with a focus on communities where children and young people need education most. They issue a fundamental challenge to the policy orthodoxies of recent decades and set out a blueprint for making education both better and fairer.

Between the ages of 9 and 12, children have to complete Standardised Assessment Tests (Sats). To help them practise for these tests, we have produced a new series of comprehension booklets. The Standards and Testing Agency states that the child has 1 hour to complete the test, answering the questions in the answer booklet. Read one text and answer the

questions about that text, before moving onto the next text. There are three texts and three sets of questions in each booklet. The tests in this booklet are based on the KS2 Reading Assessment sample papers. It is important to try and complete them in an hour, but it is your choice. The more tests you practise the quicker you will get.
