Are you a natural psychic and don't know it? Probably. Have you ever thought of somebody, the phone rings, and it's that person? Or perhaps you say something at exactly the same time as a friend says or thinks it. Most people have. This is your natural God-given intuition at work. This book will help you develop and learn how to use your

natural ESP to help you in every area of your life. How often do you use your natural ESP? For example, have you ever experienced: *A hunch that pays off? *A dream with useful information? *Unexplained coincidences? Jose Silva's Everyday ESP, by Jose Silva Jr. with Ed Bernd Jr., will help you not only learn how to tap into the natural ability of ESP but it will also help you understand hidden information that you can use to make better decisions in all areas of your life. Imagine if you had a guide who

actually knew what lies ahead for you, and who could guide you to success, happiness, and fulfillment. In Jose Silva's Everyday ESP you will learn how to use your ESP to obtain guidance and help from higher intelligence to help you make better decisions and to fulfill your life's mission. Learn to use the scientifically researched and proven Silva Dynamic Meditation System to help you in all areas of life: health, relationships, success, making good decisions, and finding your purpose in life. Wouldn't it be

nice to have guidance from higher intelligence as to how to achieve all this? For the first time in any of the many books released by Jose Silva, this book will contain a link to free online audio recordings that will speed up the process. The audio recordings include the Silva Centering Exercise, a conditioning cycle that Jose Silva invested 22 years of scientific research to develop. In just a few hours you can be functioning at the powerful alpha brain wave level. In addition to the resources in the book and

on the audio recordings, you can call on a network of Silva UltraMind ESP Systems Instructors throughout the world to help you. Plus, you will also be provided with a link to a special Website with additional resources and provisions to get personal answers to questions about using Jose Silva's UltraMind ESP System to help you live the successful life that higher intelligence envisioned for you. As Jose Silva used to say, "May the rest of your life, be the best of your life." 2nd Edition

SILVA ULTRAMIND'S INTUITIVE GUIDANCE SYSTEM FOR BUSINESS The secret to business success is intuition. It's not just a matter of following your hunches. It's about following the right hunches. Being able to sense people's inner thoughts and needs helps you say and do the things needed to quickly reach your goals and achieve success. Many people know this, but many also believe that a good sense of intuition is something that you're just born with-not something that you can develop and train. Jose Silva,

developer of the world-famous Silva Mind Control Method, had proved them wrong. Now, with Mr. Silva's state-of-the-art UltraMind Intuitive Guidance System for Business, you can learn how to use your intuition regularly and reliably. You will learn how to: Program yourself to do the right thing at the right time in order to take advantage of opportunities and increase income. Sense what other people's real wants and needs are so that you can say the right thing at the right time when negotiating, managing subordinates, or reporting to superiors and shareholders. Learn mental techniques to establish immediate rapport with co-workers,

customers, clients, and suppliers. Program your work environment for success. Trust your judgment and your decisions and end doubt and second-guessing.

The legendary golf instructional, available again. This is, along with Harvey Penick's Little Red Book, THE book Golf professionals turn to. "Thirty years ago I was recommending Joe Dante's book *The Four Magic Moves To Winning Golf* as a must read for aspiring PGA professionals. What Dante said in '62 has influenced many of the game's finest teachers. Dante was a visionary."--Gary Wiren, author of *New Golf Mind* When published, *The Four Magic Moves To*

Winning Golf radically changed the way many players thought about the golf swing. Dante's system showed how simple it was to improve one's game, and at the same time gave the golfer one of the most comprehensive analyses of swing mechanics ever published. Now, thirty-three years after its original publication, Main Street is proud to reissue this classic instructional. Dante begins by sweeping out all the misconceptions of the game. "If good golf is to be learned

and the poor player is to improve, a purging must take place, painful as it may be." Dante discusses a few basics of grip and stance, and then he gets to the heart of his book, the four magic moves. As he reveals each of the moves, Dante focuses on the physical checkpoints so that any golfer can make sure that his or her swing is on the right track. *The Four Magic Moves To Winning Golf* is straightforward and easy to understand, yet unlike other golf books it is irreverent and audacious in its approach to

mastering the game. The publication of this rediscovered classic is sure to establish Joe Dante's reputation as one of golf's greatest teachers.

BION [Believe It Or Not], Book #3 of the CUL8R Time Travel Mystery/Romance series.

Change the past, Save the future. Four high school friends are able to do two things no one else on the planet can do . . . talk with dead people and time travel to the past. However, Kelly, who lost her phone during their last adventure, is temporarily grounded. She worries that her new friends will time travel without her, leaving her all alone in her new home in Ft. Myers Beach, Florida. But they surprise her on her birthday and soon they are back in Scott's lab,

listening to the old radio that Thomas Edison had invented and called “The Telephone to the Dead”. As they slowly turn the dial Kelly, Scott, Austin and Zoey hear hundreds of sad, lonely voices of souls that have passed but apparently never moved on, pleading for help. When they first discovered the radio in Kelly’s aunt’s garage, they had been touched by the cries and pleas coming from its speakers, but they had no way to go back in time to help them. That is, until Scott reveals an invention of his own . . . a time travel app. They’ve already tested it twice, with both trips being very successful, but not without danger. Even though they returned with a few scrapes and bruises, and even a gunshot wound, they are eager to go on a new adventure and help solve a mystery. A young woman’s voice comes through and asks them to find her twin brother, Jesse, who had run away to the circus in 1927, then disappeared and was never heard from again. Going back and living with a circus sounds like fun. Plus an old book written by his sister provides a glimpse into the past . . . as well as a photo of Jesse, a photo that grabs their attention and sets the girls' hearts racing. They land in a cornfield in Wichita Falls, Texas as the circus is setting up. It doesn’t take them long to discover that circus life is not all glamour and fun; it’s a lot of hard work. As usual, they jump in and quickly find jobs, places to sleep and new friends. But most importantly, they find Jesse. Now all they have to do is keep him alive. For Zoey and Jesse, it’s love at first sight. It’s a first romance for both of them and their love blossoms as they travel from city to city. Zoey knows she’s too young to settle down and that Jesse is from a different

time and culture, but her feelings for him are strong. Her and her friends' time travel mission has taken on a new dimension. Should they be successful and save his life, will Zoey be able to let him go? Is it possible for him to come to 2013 with her? Is it possible for her to stay in 1927 with him? Ultimately, can she give up everything she has in the present for true love in the past? Jesse's talent working with the big cats catches the attention of the Martin Maxwell, the owner of the circus. Maxwell promotes him to the center ring as a

replacement for their current lion tamer who is planning on moving up to the Ringling and Barnum & Bailey Circus. Unfortunately, not everyone shares Zoey's love for Jesse and wants him to disappear forever. Kelly, Scott, Austin and Zoey must figure out who wants Jesse dead and stop him or her before Jesse's fate is sealed. Book #1, OMG [Oh My God], a time travel mystery/romance back to 1966 was awarded The Best Young Adult Indie Book in 2013 and was a Finalist in the Beverly Hills Book Awards for 2013. Book #2, BRB [Be Right

Back], a time travel mystery/romance back to 1980 was a Readers' Favorite for 2013.

The Ultimate Ps3(tm) Repair Guide

Nintendo's Sweet 16! Following the worldwide success of the Nintendo Entertainment System and the home video game industry's overall shift toward a new generation of more powerful hardware, a successor to the NES seemed inevitable. In August 1991, Nintendo brought that successor—the Super Nintendo Entertainment System, or Super NES—to America, and in the process launched one of the most beloved consoles of all time. Super NES Works Vol. I looks back at the early days of the Super NES in the U.S., with comprehensive retrospectives of both the console and all 31 games

to ship for it through the end of the year. Each entry is accompanied with sidebars, supplementary features, photos of U.S. packaging, and crisp high-resolution direct-feed screenshots. Super NES Works Vol. I also includes an overview of Japanese releases for Super Famicom through the end of 1991, a comprehensive timeline of events leading up to the system's launch, and more! It's the definitive 30th anniversary retrospective of how one of the greatest consoles ever got its start. Based on the YouTube video series "Super NES Works" (aka "Mode Seven"). *iPod and iTunes Hacks* Writers, musicians, filmmakers, gamers, lawyers and academics

talk about why copyright matters to them – or doesn't. We expect to be able to log on and read, watch or listen to anything, anywhere, anytime. Then copy it, share it, quote it, sample it, remix it. Does this leave writers, designers, filmmakers, musicians, photographers, artists, and software and game developers with any rights at all? Have we forgotten how to pay for content? Are big corporations and copyright lawyers the only ones making money? Or are we looking in the wrong direction as illegal downloading becomes the biggest industry of all and copyright violation a way of life? In this provocative book John Birmingham, Linda Jaivin, Marc

Fennell, Clem Bastow, Lindy Morrison, Imogen Banks, Dan Hunter, Angela Bowne and others fire up the copyright debate like never before.

1-Day Diet - the Fastest Diet in the World!

A poorly performing database application not only costs users time, but also has an impact on other applications running on the same computer or the same network. SQL Tuning provides an essential next step for SQL developers and database administrators who want to extend their SQL tuning expertise and get the most from their database applications. There are two basic issues to focus on when tuning SQL: how to find and

interpret the execution plan of an SQL statement and how to change SQL to get a specific alternate execution plan. SQL Tuning provides answers to these questions and addresses a third issue that's even more important: how to find the optimal execution plan for the query to use. Author Dan Tow outlines a timesaving method he's developed for finding the optimum execution plan--rapidly and systematically--regardless of the complexity of the SQL or the database platform being used. You'll learn how to understand and control SQL execution plans and how to diagram SQL queries to deduce the best execution plan for a query. Key chapters in the

book include exercises to reinforce the concepts you've learned. SQL Tuning concludes by addressing special concerns and unique solutions to unsolvable problems. Whether you are a programmer who develops SQL-based applications or a database administrator or other who troubleshoots poorly tuned applications, SQL Tuning will arm you with a reliable and deterministic method for tuning your SQL queries to gain optimal performance.
