Where Can I Get a Phoenix Dramatists Play Service Inc

A heartwarming, bittersweet comedy about three generations of American women.

Mary Goodman, a woman of the "greatest generation" is mourning the loss of her husband. Her daughter, Deborah, is encouraging her to end her period of mourning and move on with a new independence. In a series of scenes between Mary, Deborah, and Mary's mother, Bessie, Mary reflects back on her life as a daughter, wife and mother. A trio of actresses plays the three women over the course of sixty-five years. As Mary's life progresses from childhood to matrimony to motherhood, we see how each successive generation of women lives up to the expectations of the past and makes brave new choices about the future. At the end of the play, the three women stand as links in a chain made of faith, love, and understanding.

First published to tie-in with the Royal Court Theatre's production in April 2003, with a cast including Alexander Delamere, Victoria Gay, Fiona Glascott and Rosamund Pike, this is the newly revised version of award-winning Terry Johnson's classic play. A media lecturer and his female protégé find some deteriorated Hitchcock footage. It would appear they had discovered some early rushes but what film were they for and who is the mysterious blonde?

Hitchcock Blonde is not a play about Alfred Hitchcock, though he may make a cameo appearance. Of the less familiar characters, one is likely to amuse, the other will behave appallingly in a theatrical film noir of genius, lust, death and voyeuristic obsession. 'On the face of it, Hitchcock Blonde is a play about Alfred Hitchcock and women, about sex and desire, and what happens when you have either without

the other. It is also a detective story, a biographical fantasy, an intellectual comedy. . . a play about life in films and films in life, about predators and victims...' Sunday Times

"An intergenerational collection of personal narratives by women in the 21st century who mother from the margins of our society. It features 20 stories of caretakers who have both overcome their own personal challenges and are now making a difference in the public sphere today. This coffee table book offers readers an opportunity to experience the lives of "detestable" or "reprehensible" moms from the perspective of the women we love to judge. Filled with stunning photography and provocative stories, it challenges popular perceptions of teen moms, survivors of domestic violence, and baby mamas. It adds complexity to stereotypical stories about mamas who abuse drugs or engage in sex work. And it demonstrates both the humanity and value of the very mothers our society often dismisses. This book is an excellent choice for scholars of motherhood studies, black women's autobiographies, sociology, gender and women's studies, and rhetoric. It is a must-read book for social workers. Every woman who has ever been called "infamous" should own a copy; it will inspire, inform, and make you laugh. But above all, it will remind you of your power"--Back cover

The field of Molecular Diagnostics is rapidly evolving and molecular characterization of neoplasms is becoming an increasingly important part of the pathologic work up and diagnosis of many tumor types. This work provides a high-yield reference book that compiles critical information related to molecular biomarkers for various solid tumor and hematologic malignancy subtypes. It is succinct yet comprehensive enough to be suitable for fellows in training and medical professionals with an interest in molecular pathology and biomarkers. The book covers many aspects of molecular diagnostics, from techniques to applications and comprehensive summaries of the current molecular biomarkers of critical importance in solid and liquid tumors. Attention is also specifically devoted to bioinformatics and next generation sequencing, as well as pre-analytical issues that must be considered for accurate interpretation of molecular results in the context of overall patient care. This text focuses on clinical utility and validity and serves as an “owner’s manual” in Genomic Diagnostics for the practicing pathologist, pathology fellows and residents and other health care providers. Physicians will find this book invaluable as a quick reference for current molecular testing modalities and guidelines, tumor board preparation, deciding which test to order and interpreting genomic laboratory results. In addition, it is an accessible for trainees as a board review preparation reference.

One of the New York Times Book Review's 10 Best Books of the Year New York Times bestselling author Danielle Trussoni's unforgettable memoir of her wild and haunted father, a man whose war never really ended. From her charismatic father, Danielle Trussoni learned how to rock and roll, outrun the police, and never shy away from a fight. Spending hour upon hour trailing him around the bars and honky-tonks of La Crosse, Wisconsin, young Danielle grew up fascinated by stories of her dad's adventures as a tunnel rat in Vietnam, where he'd risked his life crawling head first into narrow passageways to search for American POWs. A vivid and poignant portrait of a daughter's relationship with her father, this funny, heartbreaking, and beautifully written memoir, *Falling Through the Earth*, "makes plain that the horror of war doesn't end in the trenches" (Vanity Fair).

"This book contains the photographic reproductions of five years of art projects created at America's Camp by the children and their counselors under the creative direction of art educator Traci Molloy. The book was created so that the children would be able to keep their memories of America's Camp alive and pass these memories on to their children and grandchildren. It also serves as an illustrated record, through the eyes of children, of the atrocity that occurred on September 11, 2001." --Preface.
