The York Perform Multi Gym has a separate press and pec arms; this enables you to perform any strength exercise without leaving your seat, as there is no need for any mechanism changes. The chest press will allow you to target the pectoralis major muscle , which is the broad muscle that covers your chest area.

The machine has a set of 3 cables to allow various exercises. I have changed the cables several times and the only negative I have

regarding the 925 is the cables wear quickly. Today I went to order some more cables and was told that they are obsolete, thus rendering my machine useless.
