NEW YORK TIMES BESTSELLER The complete, uncensored history of the award-winning *The Daily Show* with Jon Stewart, as told by its correspondents, writers, and host. For almost seventeen years, *The Daily Show* with Jon Stewart brilliantly redefined the borders between television comedy, political satire, and opinionated news coverage. It launched the careers of some of today's most significant comedians, highlighted the hypocrisies of the powerful, and garnered 23 Emmys. Now the show's behind-the-scenes gags, controversies, and camaraderie will be chronicled by the players themselves, from legendary host Jon Stewart to the star cast members and writers—including Samantha Bee, Stephen Colbert, John Oliver, and Steve Carell - plus some of *The Daily Show*'s most prominent guests and adversaries: John and Cindy McCain, Glenn Beck, Tucker Carlson, and many more. This oral history takes the reader behind the curtain for all the show's highlights, from its origins as Comedy Central's underdog late-night program to Trevor Noah's succession, rising from a scrappy jester in the 24-hour political news cycle to become part of the beating heart of politics—a trusted source for not only comedy but also commentary, with a reputation for calling bullshit and an ability to effect real change in the world. Through years of incisive election coverage, passionate debates with President Obama and Hillary Clinton, feuds with Bill O'Reilly and Fox, and provocative takes on Wall Street and racism, *The Daily Show* has been a cultural touchstone. Now, for the first time, the people behind the show's seminal moments come together to share their memories of the last-minute rewrites, improvisations, pranks, romances, blow-ups, and moments of Zen both on and off the set of one of America's most groundbreaking shows.

A “brilliant” (The Washington Post), “clear-eyed and incisive” (The New Republic) analysis of how the wealthiest group in American society is making life miserable for everyone—including themselves. In 21st-century America, the top 0.1% of the wealth distribution have walked away with the big prizes even while the bottom 90% have lost ground. What’s left of the American Dream has taken refuge in the 9.9% that lies just below the tip of extreme wealth. Collectively, the members of this group control more than half of the wealth in the country—and they are doing whatever it takes to hang on to their piece of the action in an increasingly unjust system. They log insane hours at the office and then turn their leisure time into an excuse for more career-building, even as they rely on an underpaid servant class to power their economic success and satisfy their personal needs. They have segregated themselves into zip codes designed to exclude as many people as possible. They have made fitness a national obsession even as swaths of the population lose healthcare and grow sicker. They have created an unprecedented demand for admission to elite schools and helped to fuel the dramatic cost of higher education. They channel their political energy into symbolic conflicts over identity in order to avoid acknowledging the economic roots of their privilege. And they have created an ethos of “merit” to justify their advantages. They are all around us. In fact, they are us—or what we are supposed to want to be. In this “captivating account” (Robert D. Putnam, author of *Bowling Alone*), Matthew Stewart argues that a new aristocracy is emerging in American society and it is repeating the mistakes of history. It is entrenching inequality, warping our culture, eroding democracy, and transforming an abundant economy into a source of misery. He calls for a regrouping of American culture and politics on a foundation closer to the original promise of America.

Cybernetics (loosely translated from the Greek): “a helmsman who steers his ship to port.” Psycho-Cybernetics is a term coined by Dr. Maxwell Maltz, which means, “steering your mind to a productive,

useful goal so you can reach the greatest port in the world, peace of mind. ” Since its first publication in 1960, Maltz ’ s landmark bestseller has inspired and enhanced the lives of more than 30 million readers. In this updated edition, with a new introduction and editorial commentary by Matt Furey, president of the Psycho-Cybernetics Foundation, the original text has been annotated and amplified to make Maltz ’ s message even more relevant for the contemporary reader. “ Before the mind can work efficiently, we must develop our perception of the outcomes we expect to reach. Maxwell Maltz calls this Psycho-Cybernetics; when the mind has a defined target it can focus and direct and refocus and redirect until it reaches its intended goal. ” —Tony Robbins (from Unlimited Power) Maltz was the first researcher and author to explain how the self-image (a term he popularized) has complete control over an individual ’ s ability to achieve (or fail to achieve) any goal. And he developed techniques for improving and managing self-image—visualization, mental rehearsal, relaxation—which have informed and inspired countless motivational gurus, sports psychologists, and self-help practitioners for more than fifty years. The teachings of Psycho-Cybernetics are timeless because they are based on solid science and provide a prescription for thinking and acting that lead to quantifiable results.

It will begin to impact you long before your reach the last chapter. Let Bob teach you about: CONFIDENCE PERSISTENCE GOALS SUCCESS ATTITUDE COMMUNICATION ACTION DECISION RISK RESPONSIBILITY MONEY CREATIVITY There are a few people who are truly successful and many others who work hard all of their lives attempting to be successful. As a result, the average person believes that success is hard to obtain and that those who do achieve it are either lucky or extremely brilliant. Most people are so busy attempting to make ends meet that they never take the time to really study the highly successful people. Every person who has made such a study has arrived at the same shocking conclusion: success is merely a decision. You must decide what you want and then begin moving toward it. You decide where you are, and you begin with whatever you have. That’s it. "The only limits in our life are those that we impose on ourselves." - BOB PROCTOR

In her six-decade long writing career Adrienne Rich (1929–2012) addressed, with sagacity and probing honesty, most of the significant issues of her lifetime. A poet of finely tuned craft, she won numerous prizes, awards, and honorary degrees, and famously rejected the prestigious National Medal for the Arts in 1997. She wrote twenty-five volumes of poetry and seven non-fiction books as she combined the roles of poet, scholar, theorist, and activist. Rich wrote passionately and powerfully about major 20th and early 21st century concerns such as feminism, racism, sexism, the Vietnam War, Marxism, militarism, the growing income disparities in the U.S., and other social issues.

Her works ask important questions about how we should act, and what we should believe. They imagine new ways to deal with the social and political challenges of the twentieth century. Setting her work in the context of her life and American politics and culture during her lifetime, this book explores Rich’s poetic and personal journey from conservative, dutiful follower of cultural and poetic traditions to challenging questioner and critic, from passivity and powerlessness to activist, theorist, and acclaimed “poet of the oppositional imagination.”

The valuable lesson contained in this book is that the best way to attract prosperity is to abandon the pursuit of wealth and allow it to flow toward oneself. The ancient laws of attraction are explained in plain language and applied in an economic framework—a new perspective not found in other popular explications of these principles. A path to prosperity is offered in tandem with guidance for achieving harmony in both professional and personal spheres while strategies to overcome destructive thinking patterns and to sustain the flow of wealth while channeling it constructively are delineated. Profiles of individuals who pursued their passion rather than profit, and subsequently reaped

immense rewards, will inspire those seeking to transform their lives.
