A New York Times Notable Book of 2020 "Saint X" is hypnotic. Schaitkin's characters...are so intelligent and distinctive it feels not just easy, but necessary, to follow them. I devoured [it] in a day." – Oyinkan Braithwaite, New York Times Book Review When you lose the person who is most essential to you, who do you become? Recommended by Entertainment Weekly, included in Good Morning America's 20 Books We're Excited for in 2020 & named as one of Vogue's Best Books to Read This Winter, Bustle's Most Anticipated Books of February 2020, and O Magazine's 14 of the Best Books to Read This February! Hailed as a "marvel of a book" and "brilliant and unflinching," Alexis Schaitkin's stunning debut, Saint X, is a haunting portrait of grief, obsession, and the bond between two sisters never truly given the chance to know one another. Claire is only seven years old when her college-age sister, Alison, disappears on the last night of their family vacation at a resort on the Caribbean island of Saint X. Several days later, Alison's body is found in a remote spot on a nearby cay, and two local men – employees at the resort – are arrested. But the evidence is slim, the timeline against it, and the men are soon released. The story turns into national tabloid news, a lurid mystery that will go unsolved. For Claire and her parents, there is only the return home to broken lives. Years later, Claire is living and working in New York City when a brief but fateful encounter brings her together with Clive Richardson, one of the men originally suspected of murdering her sister. It is a moment that sets Claire on an obsessive pursuit of the truth – not only to find out what happened the night of Alison's death but also to answer the elusive question: Who exactly was her sister? At seven, Claire had been barely old enough to know her: a beautiful, changeable, provocative girl of eighteen at a turbulent moment of identity formation. As Claire doggedly shadows Clive, hoping to gain his trust, waiting for the slip that will reveal the truth, an unlikely attachment develops between them, two people whose lives were forever marked by the same tragedy. For readers of Emma Cline's The Girls and Lauren Groff's Fates and Furies, Saint X is a flawlessly drawn and deeply moving story that culminates in an emotionally powerful ending.

What if all the Palestinians in Israel simply disappeared one day? What would happen next? How would Israelis react? These unsettling questions are posed in Azem's powerfully imaginative novel. Set in contemporary Tel Aviv forty eight hours after Israelis discover all their Palestinian neighbors have vanished, the story unfolds through alternating narrators, Alaa, a young Palestinian man who converses with his dead grandmother in the journal he left behind when he disappeared, and his Jewish neighbor, Ariel, a journalist struggling to understand the traumatic event. Through these perspectives,

the novel stages a confrontation between two memories. Ariel is a liberal Zionist who is critical of the military occupation of the West Bank and Gaza, but nevertheless believes in Israel's project and its national myth. Alaa is haunted by his grandmother's memories of being displaced from Jaffa and becoming a refugee in her homeland. Ariel's search for clues to the secret of the collective disappearance and his reaction to it intimately reveal the fissures at the heart of the Palestinian question. The Book of Disappearance grapples with both the memory of loss and the loss of memory for the Palestinians. Presenting a narrative that is often marginalized, Antoon's translation of the critically acclaimed Arabic novel invites English readers into the complex lives of Palestinians living in Israel.

The Political Poetess challenges familiar accounts of the figure of the nineteenth-century Poetess, offering new readings of Poetess performance and criticism. In performing the Poetry of Woman, the mythic Poetess has long staked her claims as a creature of "separate spheres"—one exempt from emerging readings of nineteenth-century women's political poetics. Turning such assumptions on their heads, Tricia Lootens models a nineteenth-century domestic or private sphere whose imaginary, apolitical heart is also the heart of nation and empire, and, as revisionist histories increasingly attest, is traumatized and haunted by histories of slavery. Setting aside late Victorian attempts to forget the unfulfilled, sentimental promises of early antislavery victories, The Political Poetess restores Poetess performances like Julia Ward Howe's "Battle Hymn of the Republic" and Emma Lazarus's "The New Colossus" to view—and with them, the vitality of the Black Poetess within African-American public life. Crossing boundaries of nation, period, and discipline to "connect the dots" of Poetess performance, Lootens demonstrates how new histories and ways of reading position poetic texts by Felicia Dorothea Hemans, Elizabeth Barrett Browning, Dinah Mulock Craik, George Eliot, and Frances E. W. Harper as convergence points for larger engagements ranging from Germaine de Staël to G.W.F. Hegel, Virginia Woolf, Elizabeth Bishop, Alice Walker, and beyond.

NATIONAL BESTSELLER • Here is the Nobel Prize winner in her own words: a rich gathering of her most important essays and speeches, spanning four decades that "speaks to today's social and political moment as directly as this morning's headlines" (NPR). These pages give us her searing prayer for the dead of 9/11, her Nobel lecture on the power of language, her searching meditation on Martin Luther King Jr., her heart-wrenching eulogy for James Baldwin. She looks deeply into the fault lines of culture and freedom: the foreigner, female empowerment, the press, money, "black matter(s)," human rights, the artist in society, the Afro-American presence in American literature. And she turns her incisive critical eye to her own work (The Bluest Eye, Sula, Tar

Baby, Jazz, Beloved, Paradise) and that of others. An essential collection from an essential writer, The Source of Self-Regard shines with the literary elegance, intellectual prowess, spiritual depth, and moral compass that have made Toni Morrison our most cherished and enduring voice.

"Portis House emerged from the fog as we approached, showing itself slowly as a long, low shadow...." In 1919, Kitty Weekes, pretty, resourceful, and on the run, falsifies her background to obtain a nursing position at Portis House, a remote hospital for soldiers left shell-shocked by the horrors of the Great War.

Hiding the shame of their mental instability in what was once a magnificent private estate, the patients suffer from nervous attacks and tormenting dreams. But something more is going on at Portis House—its plaster is crumbling, its plumbing makes eerie noises, and strange breaths of cold waft through the empty rooms. It ' s known that the former occupants left abruptly, but where did they go? And why do the patients all seem to share the same nightmare, one so horrific that they dare not speak of it? Kitty finds a dangerous ally in Jack Yates, an inmate who may be a war hero, a madman . . . or maybe both. But even as Kitty and Jack create a secret, intimate alliance to uncover the truth, disturbing revelations suggest the presence of powerful spectral forces. And when a medical catastrophe leaves them even more isolated, they must battle the menace on their own, caught in the heart of a mystery that could destroy them both. New York Celadon Books

Young, Gifted, and Black is a unique joint effort by three leading African-American scholars to radically reframe the debates swirling around the achievement of African-American students in school. In three separate but allied essays, Theresa Perry, Claude Steele, and Asa Hilliard place students' social identity as African-Americans at the very center of the discussion. They all argue that the unique social and cultural position Black students occupy, in a society which often devalues and stereotypes African American identity, fundamentally shapes students' experience of school and sets up unique obstacles. And they all argue that a proper understanding of the forces at work can lead to practical, powerful methods for promoting high achievement at all levels. Theresa Perry argues that African-American students face dilemmas, founded in the experience of race and ethnicity in America, that make the task of achievement distinctive and difficult. (For instance: "How do I commit myself to achieve, to work hard over time in school, if I cannot predict when or under what circumstances this hard work will be acknowledged and recognized?") She uncovers a rich and powerful African- American philosophy of education, historically forged against such obstacles and capable of addressing them, by reading African-American narratives from Frederick Douglass to Maya Angelou. She carefully critiques the most popular theoretical explanations for group differences in achievement. And she lays out how educators today-in a postcivil rights era-can draw on theory and on the historical power of the African-American philosophy and tradition of education to reorganize the school experience of African-American students. Claude Steele reports stunningly clear empirical psychological evidence that when Black students believe they are being judged as members of a stereotyped group rather than as individuals, they do worse on tests. He finds the mechanism, which he calls "stereotype threat," to be a quite general one, affecting women's performance in mathematics, for instance, where stereotypes about gender operate. He analyzes the subtle psychology of stereotype threat and reflects on the broad implications of his research for education, suggesting techniques-based again on evidence from controlled psychological experiments-that teachers and mentors and schools can use to counter stereotype threat's powerful effect. Asa Hilliard's ends essay, against a variety of false theories and misguided views of African American achievement, and focuses on actual schools and programs and teachers around the country that allow African-American students achieve at high levels, describing what they are like and what makes them work. Young, Gifted, and Black will change the way we think and talk about African American student achievement and will be necessary reading on this topic for years to come.

Drawing on the collected archives of distinguished twentieth-century Black woman writers such as Lucille Clifton, Audre Lorde, Toni Cade Bambara, Lorraine Hansberry, and others, Marina Magloire traces a new history of Black feminist thought in relation to Afro-diasporic religion. Beginning in the 1930s with the pathbreaking ethnographic work of Katherine Dunham and Zora Neale Hurston in Haiti and ending with the present-day popularity of Afro-diasporic spiritual practices among Black women, she offers an alternative genealogy of Black feminism, characterized by its desire to reconnect with ancestrally centered religions like Vodou. Magloire reveals the tension, discomfort, and doubt at the heart of each woman's efforts to connect with ancestral spiritual practices. These revered writers are often regarded as unchanging monuments to Black womanhood, but Magloire argues that their feminism is rooted less in self-empowerment than in a fluid pursuit of community despite the inevitable conflicts wrought by racial capitalism. The subjects of this book all model a nuanced Black feminist praxis grounded in the difficult work of community building between Black women across barriers of class, culture, and time.

Reviving the Tribe creates a rich and brutally honest portrait of contemporary gay men ' s lives amidst the seemingly endless AIDS epidemic and offers both autobiographical self-examination and a relentless critique of current sexual politics within the gay community. Fearlessly confronting the horrors experiences by surviving gay men without giving way to hopelessness, denial, or blame, Reviving the Tribe offers an inspiring blueprint for the gay community which faces a continuing spiral of disaster. In Reviving the Tribe, Author Eric Rofes argues that a return to the interrupted agenda of gay liberation may provide long-term motivation to keep gay men alive and spur rejuvenation of new generations of gay culture. By interweaving social history, psychology, anthropology, epidemiology, sociology, feminist theory, and sexology with his own journey through the epidemic, Rofes provides a moving and compelling argument for stepping out of the " state of emergency " and embracing a life beyond disease. He boldly offers a plan for community regeneration focused on restoring mental health, reclaiming sexuality, and mending the social fabric of communal gay life. Rofes asks unspoken questions lurking in gay men ' s minds and suggests answers to these questions, hitting such controversial topics as: gay men ' s sex cultures of the 1970s why " educated " gay men continue to become HIV-infected changing forms of gay masculinity the opening of new sex clubs and bathhouses leaving " rage activism " behind links between the Holocaust and AIDS unacknowledged roots in the feminist movement of gay men ' s AIDS response mass denial of chronic trauma among gay men The refusal to confront the ever-intensifying manifestations of AIDS has seriously endangered the foundation of contemporary gay communities. Rofes argues that many gay men suffer from the " disaster syndrome, " a psychologically determined response that defends individuals against being overwhelmed by traumatic experience. In Reviving the Tribe, he provides a radical critique of contemporary gay political culture and suggests alternatives which offer the opportunity to face history, grapple with decimation, and regenerate communal life. Cautioning that an honest analysis of recent gay history and urban cultures promises neither to stop gay men ' s suffering nor to end continuing HIV infections, Reviving the Tribe provides gay men with a clear lens through which they might scrutinize their lives, come to a new understanding of the epidemic ' s impact on their generation, and redirect activism. This courageous and inspiring work brings Rofes ' commanding intellect and twenty years of grassroots gay activism to bear on the challenging task of reconstructing gay life in the new millennium. Reviving the Tribe is filled with insight of special interest to gay men, lesbians involved in the mixed lesbian/gay movement, sociologists, public health workers, psychologists, counselors, sex educators, religious leaders, and AIDS prevention policymakers searching for fresh vision.
