After failing to pass the physicals for the Barrayaran Military Academy, the brittle-boned, dwarfish son of Cordelia and Aral Vorkosigan uses a clever touch of creativity to finance a shipment of munitions into a war zone. When this simple merchant expedition draws the

attention of an unexpected enemy, Miles is forced to masquerade as commander of a fictional fleet of hired guns he names after the mountains near his home--the Dendarii Mercenaries. His original crew of misfits grows into a considerable force as enemies become allies, guided by the delicate political manoeuvrings Miles learned from his father. Miles' ability to

---

think himself out of a tight spot makes him a natural - if unlikely - leader, but this adventure in deep space is just a warm-up. On his homeworld of Barrayar, a deadly plot has been hatched against his father, Aral. A carefully planned trap is being laid, and only the wiles of the empire's unlikeliest hero can thwart it... And though he is duty-bound to deliver his prisoner to an almost certain death, Ijada may be the only one Ingrey dares trust. For a monstrous malevolence holds the haunted lord in its sway -- and a great and terrible destiny has been bestowed upon him by the gods, the damned, and the dead.
