Shore Solutions Group

Patriot Energy Solution | Solar Panel Installation New York

Regardless of the natural protection on your shore, the right combination of conditions (such as high lake level and wind direction) can result in a severe wave pounding, and shoreland soil may need additional protection. Placement of large rock, usually referred to as rip-rap, is the preferred and most common form of shore protection.

For Your Shore - Solutions
for Winter Lake Problems
About North Shore Property
Solutions, LLC North Shore
Property Solutions is a
Michigan licensed and
insured, family-run LLC
Company. Caleb, Jonathan,
and Azariah are three
brothers who, in their teens,
were bailing hay in the fields
for local farmers, cutting
firewood for winter heat for
locals, and became known
as "the guys who will get it
done".

Shore Solutions was started
on the principle that the
customer is a company's
most important asset. In
today's impersonal world of
large business, customer
service has suffered.
Companies place profits over
service, and price over quality.
