A groundbreaking approach to transforming traumatic legacies passed down in families over generations, by an acclaimed expert in the field Depression. Anxiety. Chronic Pain. Phobias. Obsessive thoughts. The evidence is compelling: the roots of these difficulties may not reside in our immediate life experience or in chemical imbalances in our brains—but in the lives of our parents, grandparents, and even great-grandparents. The latest scientific research, now making headlines, supports what many have long intuited—that traumatic experience can be passed down through generations. It Didn't Start with You builds on the work of leading experts in post-traumatic stress, including Mount Sinai School of Medicine neuroscientist Rachel Yehuda and psychiatrist Bessel van der Kolk, author of *The Body Keeps the Score*. Even if the person who suffered the original trauma has died, or the story has been forgotten or silenced, memory and feelings can live on. These emotional legacies are often hidden, encoded in everything from gene expression to everyday language, and they play a far greater role in our emotional and physical health than has ever before been understood. As a pioneer in the field of inherited family trauma, Mark Wolynn has worked with individuals and groups on a therapeutic level for over twenty years. It Didn't Start with You offers a pragmatic and prescriptive guide to his method, the Core Language Approach. Diagnostic self-inventories provide a way to uncover the fears and anxieties conveyed through everyday words, behaviors, and physical symptoms. Techniques for developing a genogram or extended family tree create a map of

experiences going back through the generations. And visualization, active imagination, and direct dialogue create pathways to reconnection, integration, and reclaiming life and health. It Didn't Start With You is a transformative approach to resolving longstanding difficulties that in many cases, traditional therapy, drugs, or other interventions have not had the capacity to touch.

The first of its kind in English, this anthology translates twenty-two popular Chinese plays published between 1919 and 2000, accompanied by a critical introduction to the historical, cultural, and aesthetic evolution of twentieth-century Chinese spoken drama. Primarily comprising works from the People's Republic of China, though including representative plays from Hong Kong and Taiwan, this collection not only showcases the revolutionary rethinking of Chinese theater and performance that began in the late Qing dynasty. It also highlights the formation of Chinese national and gender identities during a period of tremendous social and political change, along with the genesis of contemporary attitudes toward the West. Early twentieth-century Chinese drama embodies the uncertainty and anxiety brought on by modernism, socialism, political conflict, and war. After 1949, PRC theater painted a complex portrait of the rise of communism in China, with the ideals of Chinese socialism juxtaposed against the sacrifices made for a new society. The Cultural Revolution promoted a "model theater" cultivated from the achievements of earlier, leftist spoken drama, even though this theater arose from the destruction of old culture. Post-Mao drama addresses the socialist legacy and the attempts of a wounded nation to reexamine its cultural roots.

Taiwan's spoken drama synthesizes regional and foreign traditions, and Hong Kong's spoken drama sparkles as a hybrid of Chinese and Western influences. Immensely valuable for cross-disciplinary, comparative, and performance study, this anthology provides essential perspective on China's theatricality and representation of political life.

Acclaimed as a modern dramatic masterpiece, *Rosencrantz & Guildenstern are Dead* is the fabulously inventive tale of Hamlet as told from the worm 's-eye view of the bewildered Rosencrantz and Guildenstern, two minor characters in Shakespeare 's play. In Tom Stoppard 's best-known work, this Shakespearean Laurel and Hardy finally get a chance to take the lead role, but do so in a world where echoes of *Waiting for Godot* resound, where reality and illusion intermix, and where fate leads our two heroes to a tragic but inevitable end. Tom Stoppard was catapulted into the front ranks of modern playwrights overnight when *Rosencrantz and Guildenstern Are Dead* opened in London in 1967. Its subsequent run in New York brought it the same enthusiastic acclaim, and the play has since been performed numerous times in the major theatrical centers of the world. It has won top honors for play and playwright in a poll of London Theater critics, and in its printed form it was chosen one of the "Notable Books of 1967" by the American Library Association.

The former Director of National Intelligence speaks out in this New York Times bestseller *When he stepped down in January 2017 as the fourth United States Director of National Intelligence, James Clapper had been President Obama's senior intelligence advisor for six and a half years, longer than his three predecessors combined. He led the US Intelligence Community through a period that included the raid on Osama bin Laden, the Benghazi attack, the leaks of Edward Snowden, and Russia's influence*

operation on the 2016 U.S election. In *Facts and Fears*, Clapper traces his career through the growing threat of cyberattacks, his relationships with Presidents and Congress, and the truth about Russia's role in the presidential election. He describes, in the wake of Snowden and WikiLeaks, his efforts to make intelligence more transparent and to push back against the suspicion that Americans' private lives are subject to surveillance. Finally, it was living through Russian interference in the 2016 presidential election and seeing how the foundations of American democracy were--and continue to be--undermined by a foreign power that led him to break with his instincts grown through more than five decades in the intelligence profession, to share his inside experience. Clapper considers such controversial questions as, is intelligence ethical? Is it moral to intercept communications or to photograph closed societies from orbit? What are the limits of what we should be allowed to do? What protections should we give to the private citizens of the world, not to mention our fellow Americans? Is there a time that intelligence officers can lose credibility as unbiased reporters of hard truths by asserting themselves into policy decisions? *Facts and Fears* offers a privileged look inside the United States intelligence community and addresses with the frankness and professionalism for which James Clapper is known some of the most difficult challenges in our nation's history.

Poetry makes sense of life; it offers us truths; it brings us unimagined worlds; and it liberates our pain. In moments of great joy or sadness it is poetry which says the impossible, ensuring that the poignancy and loveliness of our humanity never passes into nothingness. Great Art belongs to everyone; thus, it is crucial that we continue the dialogue between ourselves and the poems. It is in this dialogue that we witness the alchemy of poetry: the way it transmutes from a language form and feature to a universal elixir. What is the point of living if there is no Art? And poetry is the most concentrated of all Art. It is the oldest of all literary forms. Poetry offers ritual and cadence: sacrifice and secrets. It is audacious and disturbing but always - and this applies to all great poetry - yours. Mine. Ours. So, we read poetry to face the truth. To stand there and dig in, to stumble over words we don't get, to find a phrase that flicks a light on in our memory, to cat-paw over and over an image that was laid down long ago. Most of all, we read poetry to remind ourselves of what really matters: to witness the soaring light that tears up our small lives.
