The book Excel 2013 and 2010 for SENIORS will teach you how to perform such tasks as entering data and formulas, formatting cells, designing charts and graphics, creating address lists, sorting, and filtering. This book also demonstrates how to make a cash book and explores other topics such as creating estimates, budgets, pivot tables and mailings. With thorough explanations and step-by-step

instructions, this book makes every task discussed easy to perform. Please note: In order to work with this book, you need to own Excel 2013 or Excel 2010 and have it already installed on your computer or have a subscription to Office 365, the online version. Suitable for: Microsoft Excel 2013 and Excel 2010 Windows 10, 8.1, 7 and Vista Excel Essential Skills Year 8 Visual Steps Publishing Excel Basic Skills: English Workbook Year 5 will help you with the writing you do every day at school - in English and in other subjects. Each chapter looks at a different type of writing. Some are imaginative text types such as narratives and poems. Others are factual text types such as reports and explanations. All the chapters begin with a sample text. Make sure you read the sample text carefully and look at the special features marked on it. You should then try the activities that follow. These give you guidance and practice in writing a similar type of text. Some activities help you with grammar and punctuation. Others focus on words - the way they are spelt and what they mean. Some activities are just for fun. Each chapter ends with activities that help you write a complete text yourself. The Excel series of English Workbooks for Years 3- ...6 will help primary school students with the reading and writing they do every day at school - % in English and in other subjects. Each chapter is set out as a separate unit of work covering a different type of writing (text type,,) and contains exercises that relate to that particular text type. In this book you will find: eleven chapters, each set out as a unit of work covering a particular text type (such as narratives, letters, speeches and information reports), including a chapter on writing for school projects exercises and activities in each chapter which are directly linked to the text type covered practice in skills such as spelling, grammar, vocabulary, punctuation and comprehension interesting and

Creating tables in Excel allows for easier formatting and reporting, but the new syntax that it implies can be intimidating to the uninitiated. In this guide, one of the developers of the official Microsoft Excel 2013 templates—all of which employ tables—helps introduce readers to the multiple benefits of tables. The book begins by explaining what tables are, how to create them, and how they can be used in reporting before moving on to slightly more advanced topics, including slicers and filtering, working with VBA macros, and using tables in the Excel web app. Novice Excel users and experts alike will find relevant, useful, and authoritative

information in this one-of-a-kind resource.
