This book, by America's premier suspension specialist, makes the art and science of suspension tuning accessible to professional and backyard motorcycle mechanics alike. Based on Paul Thede's wildly popular Race Tech Suspension Seminars, this step-by-step guide shows anyone how to make their bike, or their kid's, handle like a pro's. Thede gives a clear account of the three forces of suspension that you must understand to make accurate assessments of your suspension's condition. He outlines testing procedures that will help you gauge how well you're improving your suspension, along with your riding. And, if you're inclined to perfect your bike's handling, he even explains the black art of chassis geometry. Finally, step-by-step photos of

suspension disassembly and assembly help you rebuild your forks and shocks for optimum performance. The book even provides detailed troubleshooting guides for dirt, street, and supermoto--promising a solution to virtually any handling problem.

In CASE DAY ONE, Judson Munro, former FBI Agent and current corporate crisis negotiator responds to explosive devices planted in the giant RayChem chemical plant in the notional town of Pine Tree, Texas. During the deactivation procedures a bomb explodes killing a FBI bomb tech and friend of Munro. Unknown to Munro, the main actor of the extortion group holds a grudge against Munro. He uses Munro's family to coerce the ex-agent to outwit the FBI at the drop site and

obtain his ten million dollar demand. Motivated by revenge and justice, Munro tracks down one of the gang in the Chiricahua mountains and in the confrontation with him nearly loses his life. With his money laundering experiences in kidnapping cases, Munro follows the main actor to Panama, then back to his base in North Carolina. In an old west denouement Munro goes face to face, weapon to weapon, with the man who killed his friend.
