55% OFF for BookStore NOW at \$30,95 instead of \$40,95! The salad diet is an excellent remedy to get rid of extra kilos and say goodbye to a swollen belly and heavy legs. Moreover, it is also a precious help to fight cellulite. It is ideal not only in summer but in all periods of the year. Indicated especially after the Christmas holidays, it is very easy to follow. It is very popular among those who have little time to prepare lunch and those who, for work, are forced to eat out. If followed correctly, it is able to lose up to 5 kg in a week. In order to enjoy its slimming effect, nutritionists suggest eating it at the

beginning of a meal. This is a very popular habit among the French, definitely healthy because it hides several benefits for the body. First of all, eating it before lunch or dinner gives a sense of great satiety, which leads us not to overdo with the possible following courses, usually rich in carbohydrates and fats. Here is what happens to those who eat lettuce This also allows to shorten the time of digestion and effectively stimulate the metabolism. In this way, it helps to control blood sugar levels. In fact, the fiber contained in the salad allows you to absorb less fat and carbohydrates in favor of the nutrients that are subsequently taken. A salad diet allows for varying

one's nutrition in a creative way. There are many types of salad that can be combined in a tasty way with vegetables and dried fruits. The most used varieties of salad are lettuce, escarole, iceberg, radicchio, and arugula. In this cookbook, you will find a wide variety of salads revisited by me personally, and you will surely find recipes that will suit you both in terms of preparation and enjoyment. All these different types allow, in equal measure, to fill up with nutrients and vitamins essential for the sustenance of our body. Here are the main benefits of salad: purifies the body: source of water and very little fat, it eliminates toxins and excess waste; it fights

constipation: it brings precious fibers. Ideal for those who suffer from chronic constipation; antioxidant effect: especially green salads are rich in vitamins E and C, folic acid, lycopene, and beta carotene. It is these nutrients that counteract cellular aging, as well as stimulate blood circulation; anti-tumor action: source of flavonoids, a valuable aid against the formation of cancer cells; defeats tiredness and stress: eating salad regularly allows to fill up with minerals such as potassium, magnesium, calcium-phosphorus as well as vitamin B6. The latter is useful, especially in periods of both physical and mental fatigue; help against

migraine: lettuce, in particular, contains a substance called lactucarium that relieves headaches. Start now this new path, build your daily diet thanks to the wide variety of salads that you will find here. Buy is NOW and let your Customers get addicted to this amazing book!

Natasha Munro is your typical twenty eight year old girl, well your typical twenty eight year old English loud 'n' proud Geordie; curvy, fun and a whole load of fabulous. Her life is all going to plan - good job, great friends, close family and a loving boyfriend - until an unexpected event stands everything on its head. Nursing a broken heart and decked head-to-toe in tasselled chaps and rhinestones, Natasha and her flamboyant fairy of a gay best friend, Tink, uproot from their North-Eastern nest, throw caution

to the wind and embark on a new life together in Canada. Canada - Land of the Rocky Mountains, maple syrup; oh, and an 'in-between movies' Hollywood mega-star. Enter infamous bad-boy of the big screen, Tudor North-Tudor 'bloody' North! Tudor is towering, brooding and gorgeous, and he is harbouring a deep secret. His outward demeanour is cold and intimidating, and with it he successfully keeps everyone at arm's length; that is everyone except a certain Ms. Munro. It soon becomes clear; what with her smart

mouth and lusciously ample arse, that Natasha proves more than a match for our emotionally-distant mega-settler. Will Natasha settle into her new life in Canada? Will she ever find her fairytale happy ending? Can a movie star and an ordinary girl from England ever really make it work? Or will the secrets lurking in Tudor's past scupper their chance of happiness? Signs of a pure animality opposed to humanity, in the figure of the werewolf they become liminal creatures that move between the human and the animal. Werewolves function as a site for exploring complex anxieties of difference – of gender, class, race, space, nation or sexuality – but the imaginative and ideological uses of wolves also reflect back on the lives of material animals, long persecuted in their declining habitats across the world. Werewolves therefore raise

unsettling questions about the intersection of the real and the imaginary, the instability of human identities and the worldliness and political weight of the Gothic. This is the first volume concerned with the appearance of werewolves and wolves in literary and cultural texts from the mid-nineteenth century to the present. Drawing on representations of werewolves and wolves in literature, film, television and visual culture, the essays investigate the key texts of the lycanthropic canon alongside lesser-known works from the 1890s to the present. The result is an innovative study that is both theoretically aware and historically

nuanced, featuring an international list of established and emerging scholars based in Britain, Europe, North America and Australia. Werewolves, Wolves and the Gothic Bay View Books Passage to Faith is Book 1 in The Faith Today Trilogy series. Passage to Faith explores current scientific evidence supporting the case for the existence of a creator God. It draws on dozens of historical testimonies of individuals who had encounters with a Supreme Being which influenced them to change their lives, and sometimes the world, for the better. Taking the reader on an evidence-based tour through the cosmos,

Lee, qualified in the fields of the philosophy of futures studies, theology, literature and education, reveals a stunning degree of indwelling intelligence and beauty on display throughout the universe and on Earth. He then traces the common ground between the creation account in Genesis in the Bible and scientific cosmology, the Big Bang theory and Albert Einstein's theory of relativity. Lee discusses the faith of a wide range of people from different eras and disciplines to reinforce the conviction that God's redeeming power actively intervenes not just in nature but in history. These examples include, among others, figures from history like Joan

of Arc, Nelson Mandela and Barack Obama, and Michelle Obama, scientists and mathematicians like Copernicus, Galileo, Kepler, Newton, Faraday, Mendel, Pasteur, Pascal, George Washington Carver, Dr Wernher von Braun, Professor Christiaan Barnard and Francis S. Collins, missionaries like John Wesley, Mother Theresa, Dr David Livingstone, Dr Albert Schweitzer, and Jackie Pullinger, singers, entertainers, and actors such as Bob Dylan, Johnny Cash, Jim Reeves, Glen Campbell, Alice Cooper, Gary Cooper, John Wayne, Alfred Hitchcock, Mark Wahlberg, Mel Gibson, Sylvester Stallone, and Bear Grylls, men and women from the

sports arena like George Foreman, Novak Djokovic, Simona Halep, Margaret Court and Siya Kolisi, as well as astronauts such as Dr Buzz Aldrin, David Randolph Scott and Gene Cernan.
