RFID Programming Guide - Zebra Technologies

1. With ZPL II, all data fields are formatted as received. In Standard ZPL, the data fields are not processed until after the ^XZ (End Format) instruction is received. 2. Many new ZPL II commands (instructions) have been added. In order to take advantage of ZPL II, it is mandatory that when the following ZPL II instructions are used in a label format, they must

ZPL II Programming Guide - Zebra Technologies

Zebra Programming Language is a page description language from Zebra Technologies, used primarily for labeling applications. The original language was superseded by ZPL II, but it is not fully compatible with the older version. Meanwhile, ZPL II is emulated by many label printers of various producers. Later, the Zebra BASIC Interpreter was integrated into printer software, which is seen as an advancement to ZPL II by the producer and is ANSI BASIC oriented. Primarily, it is intended to avoid a r
