prison: a “brave and heartbreaking” tale of triumph over brutal adversity (The Nation). Jimmy Santiago Baca’s “astonishing narrative” of his life before, during, and immediately after the years he spent in the maximum-security prison garnered tremendous critical acclaim. An important chronicle that “affirms the triumph of the human spirit,” it went on to win the prestigious 2001 International Prize (Arizona Daily Star). Long considered one of the best poets in America today, Baca was

illiterate at the age of twenty-one when he was sentenced to five years in Florence State Prison for selling drugs in Arizona. This raw, unflinching memoir is the remarkable tale of how he emerged after his years in the penitentiary—much of it spent in isolation—with the ability to read and a passion for writing poetry. “Proof there is always hope in even the most desperate lives.” —Fort Worth Star-Telegram

of Bois Sauvage, Mississippi, and Esch's father is growing concerned. He's a hard drinker, largely absent, and it isn't often he worries about the family. Esch and her three brothers are stocking up on food, but there isn't much to save. Lately, Esch can't keep down what food she gets; at fifteen, she has just realized that she's pregnant. Her brother Skeetah is sneaking scraps for his prized pit bull's new litter, dying one by one. Meanwhile, brothers Randall and Junior try to stake their

claim in a family long on child's play and short on parenting. As the twelve days that make up the novel's framework yield to a dramatic conclusion, this unforgettable family - motherless children sacrificing for one another as they can, protecting and nurturing where love is scarce - pulls itself up to face another day.

Ongoing research shows that whilst 90 per cent of large companies are

conducting global projects to take advantage of distributed skills, around-the-clock operations and virtual team environments, less than one third of them have effective, established practices to help project managers and team members working over a distance. As a consequence, most organisations struggle to reach the required levels of quality and effectiveness from these projects because their methods and

practices are not adapted to a global multi-cultural environment, where most communication is in writing and asynchronous. Global Project Management describes how to adapt your organisation and your projects to thrive in this environment. The book goes beyond the recommendations on collaborative tools, to suggest the development of best practices on cross-cultural team management and global communication, recommend

organisational changes and project structures, and propose alternatives for the implementation of the new practices and methods. The text is filled with real-life examples and techniques and illustrates how to apply the recommendations as part of the successful management of any global project. Scarcity, Entitlements, and the Economics of Water in Developing Countries Edward Elgar Publishing This is the first translation of the Quran by an

American woman. It is a universal and inclusive translation with the hope that Islam will be better understood in the West. She also challenges the use of the word "to beat" in 4: 34 as meaning "to go away" which is how the Prophet of Islam understood the word as it has historically justified violence against and abuse of Muslim women. "This interpretation must change," she says, "and revert to the way the Prophet understood it." There Once Lived a Mother Who Loved Her Children, Until They Moved Back In John

The willingness of people to believe in magical icons, mystical relics, and miraculous pictures (like the Image of Guadalupe) is almost as curious as these phenomena themselves. Though they cry out for scientific investigation, millions of people blindly accept them as fact. Historical and paranormal investigator Joe Nickell confronts such strange

events, powers, and objects as the Shroud of Turin, bleeding or weeping statues, burning handprints, liquefying blood, ecstatic visions, miraculous cures, and people speaking in tongues in *Looking for a Miracle*. Departing from standard critiques of religion, Nickell carefully investigates the evidence relating to specific claims. Religious believers and rationalists alike have much to learn from this revealing examination of the evidence for the

### What Is the What Vintage

A fresh and brilliantly told memoir from a cult favorite comic artist, marked by gothic twists, a family funeral home, sexual angst, and great books. This breakout book by Alison Bechdel is a darkly funny family tale, pitch-perfectly illustrated with Bechdel's sweetly gothic drawings. Like Marjane Satrapi's

Persepolis, it's a story exhilaratingly suited to graphic memoir form. Meet Alison's father, a historic preservation expert and obsessive restorer of the family's Victorian home, a third-generation funeral home director, a high school English teacher, an icily distant parent, and a closeted homosexual who, as it turns out, is involved with his male students and a family babysitter. Through narrative that is

alternately heartbreaking and fiercely funny, we are drawn into a daughter's complex yearning for her father. And yet, apart from assigned stints dusting caskets at the family-owned "fun home," as Alison and her brothers call it, the relationship achieves its most intimate expression through the shared code of books. When Alison comes out as homosexual herself in late adolescence, the

"I think this book is kind of malleable. I've never really wanted to put it away and be done with it forever -- the second I first 'finished' it, I wanted to dig back in and change everything around. So I'm looking forward to getting back into the text, and straightening and focusing and deleting. Most of all, I'm thrilled that Vintage will be letting me include all the cool chase scenes, previously censored." -- Dave Eggers

**BONUS:** This edition contains a reader's guide. The extraordinary tale of a refugee youth soccer team and the transformation of a small American town Clarkston, Georgia, was a typical Southern town until it was designated a refugee settlement center in the 1990s, becoming the first

---

American home for scores of families in flight from the world's war zones—from Liberia and Sudan to Iraq and Afghanistan. Suddenly Clarkston's streets were filled with women wearing the hijab, the smells of cumin and curry, and kids of all colors playing soccer in any open space they could find. The town also became home to Luma Mufleh, an American-educated Jordanian woman who founded a youth soccer team to unify Clarkston's

refugee children and keep them off the streets. These kids named themselves the Fugees. Set against the backdrop of an American town that without its consent had become a vast social experiment, *Outcasts United* follows a pivotal season in the life of the Fugees and their charismatic coach. Warren St. John documents the lives of a diverse group of young people as they miraculously coalesce into a band of brothers,

while also drawing a fascinating portrait of a fading American town struggling to accommodate its new arrivals. At the center of the story is fiery Coach Luma, who relentlessly drives her players to success on the soccer field while holding together their lives—and the lives of their families—in the face of a series of daunting challenges. This fast-paced chronicle of a single season is a complex and inspiring tale

of a small town becoming a global community—and an account of the ingenious and complicated ways we create a home in a changing world.

student Matthew Shepard left the Fireside Bar with Aaron McKinney and Russell Henderson. The following day he was discovered on a prairie at the edge of town, tied to a fence, brutally beaten, and close to death. Six days later Matthew Shepard died at Poudre Valley Hospital in Ft. traveled to Laramie, Wyoming and conducted interviews with the people of the town. Over the next year, the company returned to Laramie six times and conducted over 200 interviews. These texts became the basis for the play *The Laramie Project*. Ten years later on September 12th, 2008, five members of Tectonic returned to Laramie to try to understand the long-term effect of the

murder. They found a town wrestling with its legacy and its place in history. In addition to revisiting the folks whose words riveted us in the original play, this time around, the company also spoke with the two murderers, McKinney and Henderson, as well as Matthew's mother, Judy Shepard. *THE LARAMIE PROJECT: TEN YEARS LATER* is a bold new work, which asks the question, "How

The #1 bestseller that tells the remarkable story of the generations of American artists, writers, and doctors who traveled to Paris, fell in love with the city and its people, and changed America through what they learned, told by America's master historian, David McCullough. Not all pioneers went west. In *The Greater Journey*, David McCullough tells the enthralling, inspiring—and until now, untold—story of the

adventurous American artists, writers, doctors, politicians, and others who set off for Paris in the years between 1830 and 1900, hungry to learn and to excel in their work. What they achieved would profoundly alter American history. Elizabeth Blackwell, the first female doctor in America, was one of this intrepid band. Another was Charles Sumner, whose encounters with black students at the Sorbonne inspired him to become the most

powerful voice for abolition in the US Senate. Friends James Fenimore Cooper and Samuel F. B. Morse worked unrelentingly every day in Paris, Morse not only painting what would be his masterpiece, but also bringing home his momentous idea for the telegraph. Harriet Beecher Stowe traveled to Paris to escape the controversy generated by her book, *Uncle Tom's Cabin*. Three of the greatest American artists ever—sculptor Augustus

Saint-Gaudens, painters Mary Cassatt and John Singer Sargent—flourished in Paris, inspired by French masters. Almost forgotten today, the heroic American ambassador Elihu Washburne bravely remained at his post through the Franco-Prussian War, the long Siege of Paris, and the nightmare of the Commune. His vivid diary account of the starvation and suffering endured by the people of Paris is published here for the

first time. Telling their stories with power and intimacy, McCullough brings us into the lives of remarkable men and women who, in Saint-Gaudens' phrase, longed "to soar into the blue." The Sublime Quran

HarperCollins

This open access book

is a 2022 Nautilus Gold Medal winner in the category "World Cultures' Transformational Growth & Development". It states that the societal fault lines of our times are deeply intertwined and that they confront us with challenges affecting the security, fairness and sustainability of our societies. The author, Prof. Dr. Patrick Huntjens, argues that

overcoming these existential challenges will require a fundamental shift from our current anthropocentric and economic growth-oriented approach to a more ecocentric and regenerative approach. He advocates for a Natural Social Contract that emphasizes long-term sustainability and the general welfare of both humankind and planet Earth. Achieving this crucial balance calls

---

for an end to unlimited economic growth, overconsumption and over-individualisation for the benefit of ourselves, our planet, and future generations. To this end, sustainability, health, and justice in all social-ecological systems will require systemic innovation and prioritizing a collective effort. The Transformative Social-Ecological Innovation (TSEI) framework

presented in this book serves that cause. It helps to diagnose and advance innovation and spur change across sectors, disciplines, and at different levels of governance. Altogether, TSEI identifies intervention points and formulates jointly developed and shared solutions to inform policymakers, administrators, concerned citizens, and professionals dedicated towards a more

sustainable, healthy and just society. A wide readership of students, researchers, practitioners and policy makers interested in social innovation, transition studies, development studies, social policy, social justice, climate change, environmental studies, political science and economics will find this cutting-edge book particularly useful. “ As a sustainability transition researcher, I

---

am truly excited about this book. Two unique aspects of the book are that it considers bigger transformation issues (such as societies' relationship with nature, purpose and justice) than those studied in transition studies and offers analytical frameworks and methods for taking up the challenge of achieving change on the ground." - Prof. Dr. René Kemp, United Nations University and

INTERNATIONAL BESTSELLER • A bestselling dystopian novel that tackles surveillance, privacy and the frightening intrusions of technology in our lives—a “compulsively readable parable for the 21st century” (Vanity Fair). When Mae Holland is hired to work for the Circle, the world's most powerful internet company, she feels she's been given the

opportunity of a lifetime. The Circle, run out of a sprawling California campus, links users' personal emails, social media, banking, and purchasing with their universal operating system, resulting in one online identity and a new age of civility and transparency. As Mae tours the open-plan office spaces, the towering glass dining facilities, the cozy dorms for those who spend nights at work, she is thrilled with the company's modernity and

---

activity. There are parties that last through the night, there are famous musicians playing on the lawn, there are athletic activities and clubs and brunches, and even an aquarium of rare fish retrieved from the Marianas Trench by the CEO. Mae can't believe her luck, her great fortune to work for the most influential company in the world—even as life beyond the campus grows distant, even as a strange encounter with a colleague leaves her

shaken, even as her role at the Circle becomes increasingly public. What begins as the captivating story of one woman's ambition and idealism soon becomes a heart-racing novel of suspense, raising questions about memory, history, privacy, democracy, and the limits of human knowledge. The Parade Penguin Elena Gorokhova's A Mountain of Crumbs is the moving story of a Soviet girl who discovers the truths adults are hiding from her and the

lies her homeland lives by. Elena's country is no longer the majestic Russia of literature or the tsars, but a nation struggling to retain its power and its pride. Born with a desire to explore the world beyond her borders, Elena finds her passion in the complexity of the English language—but in the Soviet Union of the 1960s such a passion verges on the subversive. Elena is controlled by the state the same way she is controlled by her mother,

---

a mirror image of her motherland: overbearing, protective, difficult to leave. In the battle between a strong-willed daughter and her authoritarian mother, the daughter, in the end, must break free and leave in order to survive. Through Elena ' s captivating voice, we learn not only the stories of Russian family life in the second half of the twentieth century, but also the story of one rebellious citizen whose curiosity and determination finally

transport her to a new world. It is an elegy to the lost country of childhood, where those who leave can never return.
