Adding descriptions for meta tags · zencart/documentation ...
Introduction to v2 Zen Cart v2 represents a major shift from previous versions. We are introducing a lot of new re-written code, which is meant to make life easier for those developing with/for Zen Cart, and to make plugin code easier to install. To help developers we are also creating lots of new documentation resources for that code. Getting Composer If you don't yet have composer ...

If you have an unmodified Zen Cart installation, simply extract the archive folder on top of your ZenCart folder. Address lookup will be added to the default template (in templates/template_default/). You will now have a 'Find Address' button next to all postcode input boxes and the results in a drop down box directly below it.
