Beyond the Multiplex Good Press
I hope that you will find the information helpful, useful and profitable. The information in this ebook on home movie systems and related subjects is organised into 17 chapters of about 500-600 words each. It will help you set up a home movie theatre system, and it may even help you venture out into a new career. The least that it will do is save you hundreds on professional advice. As an added bonus, I am granting you permission to use the content on your own website or in your own blogs and newsletter, although it is better if you rewrite them in your own words first. You may also split the book up and resell the articles. In fact, the only right that you do not have is to resell or give away the book as it was delivered to you.
