Late one evening in the summer of 2003, Erec Toso arrived home to his wife and children after an ordinary day at his university office. In the darkness of his yard, a rattlesnake lay along the path, basking in the post-monsoon coolness. Toso, lost in thought, never saw the snake, which struck him on the foot and injected a huge dose of venom. *Zero at the Bone* is a deeply personal narrative about Toso's physical recovery and emotional transformation following this near-death experience. In elegant prose that inspires as much as it unsettles, Toso takes the reader along with him on his expedition into

the uncharted territory of cellular damage, hallucination, and ultimately profound spiritual awakening. On all levels, it is a book about pain. Toso spares no detail in his accounts of agonizing hospital procedures, in his revelations about rattlesnake lore, or in his descriptions of the wide-ranging effects of snake venom. But quickly the reader realizes that the physical pain of the snakebite is only the more tangible marker of the psychological pain and turmoil that Toso endures in the emotional journey that ensues. In the months that follow his terrifying attack, priorities, daily habits, family relations, and definitions of self all come into question. What is predictable becomes problematic; what is comfortable becomes disconcerting. In a story that hinges on a common fear about an unlikely event—that of a snakebite—Toso uncovers a more widespread reality that many of us do not fear enough—complacency.

"Forget magick, Stevie. It's a curse." Since my parents' deaths, I've done my best to fly under the magickal radar, just like they always wanted. But when a rogue mage sets me up for murder, securing my freedom means making a deal with the world's most powerful witches: Arcana Academy of the Arts. Two decades ago, they branded my mother a heretic. Now, the Academy believes Mom's cryptic old Tarot prophecies hold the key to stopping unspeakable horrors -- and they need me to decipher them. To betray my mother's memory... or rot in prison. My choice. Spoiler alert: Your girl's going to magick school. To a forbidden world of potions, prophecies, parties... not to mention brutal classes, a mean-girl coven that puts the psycho in psychic, and four infuriating mages: Kirin, my sexy, brainy research assistant. Baz, whose dangerous smolder could make the devil blush. Ansel, the adventurous golden boy. Dr. Devane, the naughty professor who makes me long for a spanking. The scoundrels insist they're Team Stevie, but I don't need divination lessons to know they're hiding something. And if I'm right about Mom's prophecies, well... Ever see the Tower card? Fire, brimstone, everybody screaming? Downright party compared to the chaos headed our way. So grab your grimoires, girls. It's time to witch up... or die trying.

The romantic allure of the cowboy is

unparalleled. These sweaty, dusty icons of the West, past and present, still melt hearts and raise pulse rates, whether the man's wearing a ten-gallon hat, chaps and spurs, or nothing at all. In these stories of romance with a Western flair, love softens the most hardened range rider and passion fires the most stoic ramrod's blood. Fate may throw a few twists in their path, but at the end of the day, these men will be riding double into the sunset. Maria Albert - *Surviving the Crossing* K.R. Action. Comedy. Romance. And that one weird guy. When homicide detective Dexter J. Daley's testimony helps send his partner away for

murder, the consequences - and the media frenzy - aren't far behind. He soon finds himself sans boyfriend, sans friends, and, after an unpleasant encounter in a parking garage after the trial, he's lucky he doesn't find himself sans teeth. Dex fears he'll get transferred from the Human Police Force's Sixth Precinct, or worse, get dismissed. Instead, his adoptive father - a sergeant at the Therian-Human Intelligence Recon Defense Squadron otherwise known as the THIRDS - pulls a few strings, and Dex gets recruited as a Defense Agent. Dex is determined to get his life back on track and eager to get started in his new job. But his first meeting with Team Leader Sloane Brodie, who also happens to be his new jaguar Therian partner, turns disastrous. When the team is called to investigate the murders of three HumaniTherian activists, it soon becomes clear to Dex that getting his partner and the rest of the tightknit team to accept him will be a lot harder than catching the killer - and every bit as dangerous.

When you have to kill the same terrorist twice in one week there's either something wrong with your world or something wrong with your skills... and there's nothing wrong with Joe Ledger's skills. And that's both a good, and a bad thing. It's good because he's a Baltimore detective that has just been secretly recruited by the government to lead a new taskforce created to deal with the problems that Homeland Security can't handle. This rapid response group is called the Department of Military Sciences or the DMS for short. It's bad because his first mission is to help stop a group of terrorists from releasing a dreadful bio-weapon that can turn ordinary people into zombies. The fate of the world hangs in the balance....

The Bone Thief Simon and Schuster

"Twisty, grisly, genre-bending and immersive, Not Even Bones will grab you by the throat and drag you along as it gleefully tramples all of your expectations." —Sara Holland, New York Times best-selling author of Everless Dexter meets This Savage Song in this dark fantasy about a girl who sells magical body parts on the black market—until she's betrayed. Nita doesn't murder supernatural beings and sell their body parts on the internet—her mother does that. Nita just dissects the bodies after they've been "acquired." Until her mom brings home a live specimen and Nita decides she wants out; dissecting a scared teenage boy is a step too far. But when she decides to save her mother's victim, she ends up sold in his place—because Nita herself isn't exactly "human." She has the ability to alter her biology, a talent that is priceless on the black market. Now on the other side of the bars, if she wants to escape, Nita must ask herself if she's willing to become the worst kind of monster. Now available as a Webtoon!

"Durst consistently defies expectations."—Publishers Weekly (starred review) From award-winning author Sarah Beth Durst, a standalone epic fantasy set in a brand-new world of towering mountains and sparkling cities, in which a band of aging warriors have a second chance to defeat dark magic and avenge a haunting loss. Twenty-five years ago, five heroes risked their lives to defeat the bone maker Eklor—a corrupt magician who created an inhuman army using animal bones. But victory came at a tragic price. Only four of the heroes survived. Since then, Kreya, the group's leader, has exiled herself to a remote tower and devoted herself to one purpose: resurrecting her dead husband. But such a task requires both a cache of human bones and a sacrifice—for each day he lives, she will live one less. She'd rather live one year with her husband than a hundred without him, but using human bones for magic is illegal in Vos. The dead are burned—as are any bone workers who violate the law. Yet Kreya knows where she can find the bones she needs: the battlefield where her husband and countless others lost their lives. But defying the laws of the land exposes a terrible possibility. Maybe the dead don't rest in peace after all. Five warriors—one broken, one gone soft, one pursuing a simple life, one stuck in the past, and one who should be dead. Their story should have been finished. But evil doesn't stop just because someone once said, "the end."

From molecular biologist turned Anthony Award-winning author of *THE KILLING KIND* comes a fact-based thriller in the vein of Michael Crichton about our species' next great existential threat. It began four years ago with a worldwide uptick of bacterial infections: meningitis in Frankfurt, cholera in Johannesburg,

tuberculosis in New Delhi. Although the outbreaks spread aggressively and proved impervious to our drugs of last resort, public health officials initially dismissed them as unrelated. They were wrong. Antibiotic resistance soon roiled across the globe. Diseases long thought beaten came surging back. The death toll skyrocketed. Then New York City was ravaged by the most heinous act of bioterror the world had ever seen, perpetrated by a new brand of extremist bent on pushing humanity to extinction. Detective Jacob Gibson, who lost his wife in the 8/17 attack, is home caring for his sick daughter when his partner summons him to a sprawling shantytown in Central Park, the apparent site of a mass murder. Jake is startled to discover that, despite a life of abject squalor, the victims died in perfect health—and his only hope of finding answers is a twelve-year-old boy on the run from some very dangerous men.

Christian Wiman braids poetry, memoir, and criticism to create an inspired, career-defining work. Few contemporary writers ask the questions about faith, morality, and God that Christian Wiman does, and even fewer—perhaps none—do so with his urgency and eloquence. Wiman, an award-winning poet and the author of *My Bright Abyss*, lays the motion of his mind on the page in this genre-defying work, an indivisible blend of poetry, criticism, theology, and searing memoir. As Marilynne Robinson wrote, "[Wiman's] poetry and his scholarship have a purifying urgency that is rare in this world . . . [It] enables him to say new things in timeless language, so that the reader's surprise and assent are one and the same." *Zero at the Bone* begins with Wiman's

preoccupation with despair, and through fifty brief pieces, he unravels its seductive appeal. The book is studded with the poetry and prose of writers who inhabit Wiman's thoughts, and the voices of Wallace Stevens, Lucille Clifton, Emily Dickinson, and others join his own. At its heart and Wiman's, however, are his family—his young children (who ask their own invaluable questions, like “Why are you a poet? I mean why?”), his wife, and those he grew up with in West Texas. Wiman is the rare thinker who takes on the mantle of our greatest mystics and does so with an honest, profound, and contemporary sensibility. *Zero at the Bone* is a revelation.

A NEW YORK TIMES NOTABLE BOOK The Babylonians invented it, the Greeks banned it, the Hindus worshipped it, and the Christian Church used it to fend off heretics. Today it's a timebomb ticking in the heart of astrophysics. For zero, infinity's twin, is not like other numbers. It is both nothing and everything. Zero has pitted East against West and faith against reason, and its intransigence persists in the dark core of a black hole and the brilliant flash of the Big Bang. Today, zero lies at the heart of one of the biggest scientific controversies of all time: the quest for a theory of everything. Within the concept of zero lies a philosophical and scientific history of humanity. Charles Seife's elegant and witty account takes us from Aristotle to superstring theory by way of Egyptian geometry, Kabbalism, Einstein, the Chandrasekhar limit and Stephen Hawking. Covering centuries of thought, it is a concise tour of a world of ideas, bound up in the simple notion of nothing.
