**Zero Product Property**

Zero Product Property. If  $ab = 0$ , then  $a = 0$  or  $b = 0$  or  $a = b = 0$ . When solving for the variable in a quadratic equation, rewrite the equation as a factored quadratic set equal to zero. Using the zero product property, you know that if one factor is equal to zero, then the product of all factors is equal to zero.
