From the New York Times Bestselling Author and Co-Star of Fox's American Grit comes a rare and powerful book on the art of being a sniper. Way of the Reaper is a step-by-step accounting of how a sniper works, through the lens of Irving's most significant kills - none of which have been told before. Each mission is an in-depth look at a new element of eliminating the enemy, from intel to luck, recon to weaponry. Told in a thrilling narrative,

this is also a heart-pounding true story of some of The Reaper's boldest missions including the longest shot of his military career on a human target of over half a mile. In Iraq and Afghanistan, Nick Irving earned his nickname in blood, destroying the enemy with his sniper rifle and in deadly firefights behind a .50 caliber machine gun. He engaged a Taliban suicide bomber during a vicious firefight, used nearly silent sub-sonic

ammo, and was the target of snipers himself. Way of the Reaper attempts to place the reader in the heat of battle, experiencing the same dangers, horrors and acts of courage Irving faced as an elite member of the 3rd Ranger Battalion, 75th Ranger Regiment, while also examining the personal ramifications of taking another life. Readers will experience the rush of the hunt and the dangers that all snipers must face, while learning what it

takes to become an elite manhunter. Like the Reaper himself, this explosive book blazes new territory and takes no prisoners. Big Orange Country Highlights Press
Normally Indigo Tea Shop owner Theodosia Browning wouldn't attend a black-tie affair for all the tea in China. But she can hardly say no to her boyfriend, who directs public relations for the Gibbes Museum in Charleston. Max has organised an amazing gala opening for an exhibit of a genuine eighteenth-century Chinese teahouse, and the cr me de la cr me of Charleston society is invited. But the evening takes a

turn for the worse when Theodosia discovers the body of museum donor Edgar Webster. When Max becomes a suspect, it's up to Theodosia to solve the case. *KoldKraft Pakistan Research & Education Assoc.*

The case describes the

entrepreneurial journey of Tariq Siraj. He is a mechanical engineering graduate from UET Lahore and started his entrepreneurial journey right after his graduation. The sequence of events enabled him to discover his entrepreneurial mindset. The case starts with the opportunity recognition, evaluation and refinement process followed by the resource acquisition process for the new start-up. The case discusses the various influencers who helped Tariq

to plunge into an entrepreneurial journey. This case is well suited to apply the Opportunity +People +Resources = Fit (Timmons model) to the case analysis. KoldKraft continued growth by diversifying its product and services portfolio and taking the business to wherever there was need for cooling and refrigeration solutions. The current economic circumstances however, left the business quite stagnant. The case further discusses the management dilemmas being

faced by Tariq. This case adds value towards the entrepreneurship literature in Pakistan as it describes the pursuit of entrepreneurial opportunities in the much ignored agriculture sector of the country. The use of technology to add value in the agriculture business in a creative and resourceful manner is a key lesson of the case.

Looking for a reliable way to learn how to program on your own, without being overwhelmed by confusing concepts? Head First Programming introduces the core concepts of writing computer programs -- variables, decisions, loops, functions, and objects -- which apply regardless of the programming language. This book offers concrete examples and exercises in the dynamic and versatile Python language to demonstrate and reinforce these concepts. Learn the basic tools to start writing the

programs that interest you, and get a better understanding of what software can (and cannot) do. When you're finished, you'll have the necessary foundation to learn any programming language or tackle any software project you choose. With a focus on programming concepts, this book teaches you how to: Understand the core features of all programming languages, including: variables, statements, decisions, loops, expressions, and operators Reuse code with functions Use library code to save time and effort Select the best data structure to manage complex

data Write programs that talk to the Web Share your data with other programs Write programs that test themselves and help you avoid embarrassing coding errors We think your time is too valuable to waste struggling with new concepts. Using the latest research in cognitive science and learning theory to craft a multi-sensory learning experience, *Head First Programming* uses a visually rich format designed for the way your brain works, not a text-heavy approach that puts you to sleep.

The Chainsaw Operator's Manual is an essential safety tool for chainsaw operators. It is the ultimate guide to basic chainsaw operating techniques covering

safety, maintenance and cross-cutting, but not tree felling. Detailed diagrams illustrate horizontal, vertical and boring cuts, as well as trimming and cross-cutting techniques. Safety considerations are discussed, including workplace safety, occupational hazards, kick-back and identifying dangerous trees. An explanation of the 'tension' and 'compression' forces in timber is also provided to help you understand where to begin cutting to avoid jamming the saw. The book covers chainsaw maintenance in detail, explains all aspects of the equipment and helps you select the right chainsaw and personal protection equipment for your needs. Trouble-

shooting charts are included to help you solve operating problems. This manual has been updated to take into account the most recent changes in nationally accredited competency standards. It is a must-have for anyone operating a chainsaw. *International Perspectives on Information Systems* Atlantic Books Ltd
