"Fitrah: Man's

Natural
Disposition" is a
translation of the
Persian book
"Fi?rat" by the
great Muslim
thinker and
reformer,
Ayatollah Murtada
Mutahhari.
"Fitrah" is the
theme of a

10-session lecture
series given the
martyred thinker in
1976-77. With
ample citations
from the Qur'an
and other
traditional Islamic
sources, Mutahhari
discusses the
concept of 'fitrah'
or man's natural

disposition. The author does not confine himself to Islamic references as he continuously engages with the views of a wide range of philosophers including Plato, William James, Russell, Nietzsche, Marx, Feuerbach, Auguste Comte, Spencer, Will Durant, and Durkheim, among others. Mutahhari's ontological discussion covers a range of issues, including the literal and technical meaning of 'fitrah', sacred inclinations, love and worship, and the evolution of

human originality. He also examines materialism and provides a theistic approach to some issues pertaining to the theories on the origin of religion, the evolution of human society, intrinsic and acquired guidance, and intuitive and sensory dispositions. This book lays a significant interconnected and deep foundation in Islamic theology and an understanding of human psychology, sociology and anthropology fully supported by the holy Quran,

ahadith, logic and philosophy. The reader will leave with a holistic understanding of Islam and a true connection with the Almighty (SWT) through one own self. *Fiberglass Boat Survey Manual* Sheridan House, Inc.
