"Baantjer seduces mystery lovers. Inspector DeKok is part Columbo, part Clouseau, part genius, and part imp." - West Coast Review of Books..... This latest page-turner in the best-selling Baantjer series delves into a grotesque double murder in a well-known Amsterdam hotel. Faced with

murder victims found looking like macabre wooden harlequins, Inspector DeKok must unravel clues from two unexpected characters: a six-year-old girl who has trouble sleeping and a respected accountant who seeks DeKok's advice on committing the perfect crime. In a surprising twist, DeKok meets with the murderer and tries everything possible to prevent the man from giving himself up to the police. With

Dead Harlequin, Baantjer has crafted yet another intelligent, absorbing tale. Random House 'The message is consistent: it's not what you do in life, but how you do it. Notice everything. y bestselling author Alan Alda has written a shrewd and funny account of some impossible questions he's asked himself over the years: what do I value? What, exactly, is the good life? (And what does that even mean?) Here, Alda listens in on things he's heard himself saying at critical points in his life - from the turbulence of the 60s, to his first Broadway show, to the birth of his children, and to the ache of September 11.

but their running feud was brought to a head in the late 340s when Stephanos' lover Neaira was prosecuted for transgressing Athenian marriage laws. Building on Apollodorus' speech from the trial and other source material, Debra Hamel recreates Neaira's life and experiences from her lowly origins in a brothel in Corinth,

to a highly paid courtesan and sex slave, her retirement and 30-year relationship with Stephanos. Neaira's story allows Hamel to touch on many aspects of Athenian social history, from issues of prostitution and adultery, to religion and slavery, the life of a female non-citizen, to the legal process of the 4th century. An

engaging story through which Hamel offers an extraordinary window onto Athenian society. The Mathematician's Brain Simon and Schuster While the impacts of armed conflict the world over have a shocking familiarity - death, disability, rape, displacement, family separation and economic destruction

- women's experiences are not uniform. These testimonies reveal the views and experiences of women as fighters, participants, refugees, victims caught between warring factions, organisers for peace and rehabilitation, carers, and mothers, relatives and partners of the dead and the disappeared. Women from El Salvador, Nicaragua, Tigray (Ethiopia), Uganda, Somaliland, Liberia, Sri Lanka, India, Vietnam, Lebanon, Bosnia and Croatia speak of the psychological and physical damage of war, and the battle for economic survival. Long after conflict has died down, its impact continues. Women talk movingly about their efforts to rebuild their lives and those of their families and communities: taking on new roles and extra responsibilities, coping with traumatised children, finding ways to break a cycle of violence and revenge. Trying Neaira Routledge This vivid exposé of corruption and

political tyranny in the Dominican Republic so true to the reality that the President of that country went on television to denounce the book. Senci3n's novel follows the lives of three seminary students who suffer from church-state oppression. The book also gives a chilling portrait of Dr. Ramos, a sinister autocrat, who manages to survive six terms as president of his country through manipulation and tyranny.

Dark Breakers Nan A. Talese In 2006, the art world has moved far beyond sheep in formaldehyde and the most avant-garde movement is to use living people as artwork. Undergoing weeks of preparation to become 'canvases', the models are required to stay in their pose for ten to twelve hours a day and, as art pieces, they are also for sale. After being

exhibited, the 'canvases' can be bought and taken to the purchaser's home, where they are rented for weeks or months. Many beautiful young men and women long to become a 'canvas' - knowing they are a masterpiece and worth millions seems to make all the sacrifices worthwhile - especially if they can be 'painted' by the celebrated

artist Bruno Van Tysch. But there is a darker side to this art movement when it is found that the models/works of art are sometimes used in interactive works - snuff movies, where the 'art' is filmed being tortured and killed. Van Tysch's work is being targeted and the investigators must find the killer before the displays of imitations of Rembrandt's masterpieces - the biggest exhibition of 'hyperdramatic art' yet seen - On-Surface Synthesis Third Press Review of Books Milo Weaver has nowhere to turn but back to the CIA in Olen Steinhauer's brilliant follow-up to the New York Times bestselling espionage novel The Tourist. The Tourist, Steinhauer's first contemporary novel after his awardwinning historical series, was a runaway hit, spending three weeks on the New York Times bestseller list and garnering rave reviews from critics. Now faced with the end of his quiet, settled life, reluctant spy Milo Weaver has no choice but to turn back to his old job as a "tourist." Before he can get back to the CIA's dirty work,

he has to prove his loyalty to his new bosses, who know little of Milo's background and less about who is really pulling the strings in the government above the Department of Tourism—or in the outside world, which is beginning to believe the legend of its existence. Milo is suddenly in a dangerous position, between right

and wrong, between powerful self-interested men, between patriots and traitors—especially as a man who has nothing left to lose. A Son Called Gabriel Mythic Delirium Books Perhaps the most important work in modern Iranian literature, this starkly beautiful novel examines the trials of an impoverished woman and her

children living in a remote village in Iran, after the unexplained disappearance of her husband, Soluch. Lyrical yet unsparing, the novel examines her life as she contends with the political corruption, authoritarianism, and poverty of the village. It follows her vacillations between love for Soluch and anger at his absence,

and her struggle to raise her children without their father. The novel critically evokes the unfulfilled aspirations of modern Iran, portraying a society caught between a past and a future that seem equally weighed down by injustice. This landmark novel -- the first ever written in the everyday language of the Iranian people --

revolutionized Persian literature in its beautiful and daring portrayal of the life of a marginal woman and her struggle to survive. The Art of Murder Harper Collins We were going out stealing horses. That was what he said, standing at the door to the cabin where I was spending the summer with my father. I was fifteen. It was 1948 and one of the first days of July. Trond's friend Jon often appeared
