This open access book is a comparative analysis of recent large scale education reforms that broadened curriculum goals to better prepare students for the 21st century. The book examines what governments actually do when they broaden curriculum goals, with attention to the details of implementation. To this end, the book examines system level reforms in six countries at various levels of development. The study includes system level reforms in jurisdictions where students achieve high levels in international assessments of basic literacies, such as Singapore and Ontario, Canada, as well as in nations where students achieve much lower levels, such as Kenya, Mexico, Punjab-Pakistan and Zimbabwe. The chapters examine system-level reforms that focus on strengthening the capacity to teach the basics, as in Ontario and Pakistan, as well as reforms that aim at building the capacity to teach a much broader set of competencies and skills, such as Kenya, Mexico, Singapore and Zimbabwe. The volume includes systems at very different levels of spending per student and reforms at various points in the cycle of policy implementation, some just starting, some struggling to survive a governmental transition, and others that have been in place for an extended period of time. From the comparative study of these reforms, we aim to provide an understanding of how to build the capacity of education systems to teach 21st century skills at scale in diverse settings.

Instructional Strategies for Braille Literacy Applewood Books

This book is a true story of the author and his siblings who were orphaned when they were very young. However, their father, Leon, on his death bed, prayed his last prayer, “Lord God, I want my children to go to School.” After that prayer, he turned and faced the wall and died. It was that fervent prayer, that directly reached Heaven and the writer strongly believe that The Mighty God of Israel swiftly dispatched an Angel to guard, guide, protect and nurture Leon’s orphans and they excelled. Leon had two wives and after his death, whilst the widows, were still moaning, they were subjected to more intense trauma exerted by some extended family members over inheritance. This led to sharp differences and culturally, the widows were left with no option except to go back to their original families leaving their children behind. The Lord of Turnaround, the Most Merciful and the Most Gracious God of Israel threw the garment of grace on Leon’s children particularly Memory and Sabastian as they climbed up the ladder of success, academically, spiritually, and economically. They both reside happily with their families in Australia. They completely fulfilled their father, the late, Leon’s dream as they traversed through university corridors in Zimbabwe, U.K, Australia, and USA. Over a relatively long time they accrued several academic and professional qualifications. Conclusively, if the Grace of God locates you and submerge you, honestly one can do extra ordinary things that will surprise relatives, friends, and even enemies. This book is a clear testimony that shows that, WITH THE GRACE OF GOD THE WEAK CAN ALSO CLIMB.

The Powder of Sympathy Mobile Library

The first single-volume history of Zimbabwe with detailed coverage from pre-colonial times to the present, this book examines Zimbabwe's pre-colonial, colonial and postcolonial social, economic and political history and relates historical factors and trends to recent developments in the country. Zimbabwe is a country with a rich history, dating from the early San hunter-gatherer societies. The arrival of British imperial rule in 1890 impacted the country tremendously, as the European rulers exploited Zimbabwe's resources, giving rise to a movement of African nationalism and demands for independence. This culminated in the armed conflict of the 1960s and 1970s and independence in 1980. The 1990s were marked by economic decline and the rise of opposition politics. In 1999, Mugabe embarked on a violent land reform program that plunged the nation's economy into a downward spiral, with political violence and human rights violations making Zimbabwe an international pariah state. This book will be useful to those studying Zimbabwean history and those unfamiliar with the country's past.
