Survival Wisdom is a large-scale practical guide, jam-packed with information on every aspect of outdoor life and adventure. Survival Wisdom & Know-How is the most complete, all-in-one volume on every aspect of outdoor adventure and survival ever, from orienteering to campfire cooking to ice climbing and beyond. Culled from dozens of respected books from Stackpole, the industry's leader in outdoor adventure, this massive collection of wilderness know-

how leaves absolutely nothing to chance when it comes to surviving and thriving in the wilderness—and appreciating every minute of it. Topics include Building Outdoor Shelter, Tracking Animals, Winter Camping, Tying Knots, Orienteering, Reading the Weather, Identifying Edible Plants and Berries, Surviving in the Desert, Bird Watching, Fishing and Ice Fishing, Hunting and Trapping, Canoeing, Kayaking, and White Water Rafting, First Aid, Wild Animals, Cookery, and much more. Useful illustrations and photos throughout make it easy to browse and use. With contributions by the experts at the National Outdoor Leadership School (NOLS) as well as the

editors of Stackpole's Discover Nature series, Survival Wisdom & Know-How is the definitive, must-have reference for the great outdoors.

Allocations and Priorities Guide ...

For anyone curious about the nuts and bolts of human ingenuity, How Things Are Made is a fascinating exploration of the process behind the manufacture of everyday items. What are bulletproof vests made of? How do manufacturers get lipstick into the tube? How many layers are there in an iPhone screen? The answers to these questions and so much more fascinating information can be found in How Things Are Made, a behind-the-scenes look at the production of everyday objects of all kinds, from guitars, sunscreen, and

seismographs to running shoes, jet engines, and chocolate.

Thoroughly revised and redesigned from the best-selling 1995 edition, How Things Are Made also contains three new entries by author Andrew Terranova. However, each page still contains informative step-by-step text along with detailed but easy-to-follow illustrations, diagrams, and sidebars to tell the stories behind the things we sometimes take for granted. For example, did you know that Edison didn't really invent the light bulb? Or that the first bar code was on a pack of Wrigley's Spearmint gum? Or that a maple seed inspired the design for the helicopter? Discover these

fascinating anecdotes and much more in How Things Are Made.
