Lays and Lyrics Springer
This is an indispensable companion to Part One of Volume Two, containing detailed historical background from the earliest Dutch and English settlement to the pre-Civil War years. Also included are transcriptions of the minutes of the Village Board Meetings, 1857-1860, which document the struggles of the board members as they wrestled with issues presented to the growing village, such as street construction, the running loose of cattle and hogs, and the problem of people bathing naked in the Hudson River. These minutes also contain the names of all the board members and many of the village residents. Historians and genealogists alike will find this

book both interesting and useful, and will be able to see the growth of Yonkers unfolding before their eyes.

The Yoke and the Arrows; a Report on

Spain Wiley-Interscience

This unusual work is a complete treatise on the identification of precious stones that is thoroughly recommended for inclusion on the jeweller or antiquarian's bookshelf. Contents Include: Preface; How to Use The Book; Refractive Index and its Measurement; Double Refraction and How to Detect it; Colour, Colour Filters and the Dichroscope; Specific Gravity and How to Measure It; Detection of Synthetic and Imitation Stones; The Use of the Microscope; The

Identification of Diamond; The Identification of Ruby; The Identification of Sapphire; The Identification of Emerald; Aquamarine and Alexandrite; The Identification of Zircon; The Identification of Topaz; The Identification of Pink, Mauve, etc. Stones; The Identification of Brown and Orange Stones; Quartz, Opal, and Garnets; Tourmaline, Peridot, and Spinel; Identification of Translucent and Opaque Stones; Amber, Tortoiseshell, Coral, and Jet; Pearls: Real, Cultured, and Imitation; Appendix: Glossary, Alphabetical Summary of Gem Species, Crystal Systems, Bibliography, Specific Gravity and Refractive Index Tables;

Names and Addresses of Recommended Suppliers; and an Index. Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

Anaerobic Sludge Digestion

Hassell Street Press

He's a down-on-his-luck janitor with aspirations of writing the great American trash novel. She's the spoiled, sharp-tongued boss's daughter, always looking for a creative way to spice up her boring life. Normally, these two would never meet, but a higher power has different plans for both of them. The major motion picture from 20th Century Fox starring Ewan McGregor, Cameron Diaz and Holly Hunter hits the

box office in October.

A Gift from Afar Hunter Publishing (NJ)

The Middle Ages were a period of tremendous cultural and scientific advancement in the Islamic Empire—ideas and inventions that shaped our world. Did you know that: •

The numbers you use every day (Arabic numerals!) are a Muslim invention? • The marching band you hear at football games has its roots in the Middle East? • You are drinking orange juice at breakfast today thanks to Islamic farming innovations? • The modern city's skyline was made possible by Islamic architecture? The Muslim world has often been a bridge between East and West, but many of Islam's crucial innovations are hidden within the folds of history. In this important book, Bryn Barnard uses short, engaging text and gorgeous full-color artwork to bring Islam's contributions gloriously to life. Chockful of information and pictures, and eminently browsable, The

Genius of Islam is the definitive career field."--
guide to a fascinating topic.

The qualities of the mysterious tourmaline are unique in the mineral realm. Fourteen years went into creating this volume, including visits to scientific collections all over Europe. Phenomena gave way to outer experience, which led to inner experience and insight; the natural object gave way to natural being. A miracle of nature, the tourmaline is a precious stone, having perhaps the greatest range of figuration and coloring of any gem. The importance of this book is in its lavish illustrations and far-

reaching cognitive treatment of the tourmaline. At its heart are approximately 400 color photographs by some of the best photographers. The concluding text takes a Goethean view, explaining how tourmalines came to be invested with such a panoply of meanings, which remained unacknowledged for centuries. This is a book your family will treasure for many generations.

How can you realize

MySQL's full power? With

High Performance

MySQL, you'll learn

advanced techniques for

everything from setting

service-level objectives to

designing schemas,

indexes, and queries to

tuning your server,

operating system, and

hardware to achieve your

platform's full potential.

This guide also teaches

database administrators

safe and practical ways to

scale applications

through replication, load

balancing, high

availability, and failover.

Updated to reflect recent

advances in cloud- and

self-hosted MySQL,

InnoDB performance, and

new features and tools,

this revised edition helps

you design a relational

data platform that will

scale with your business.

You'll learn best practices

for database security

along with hard-earned

lessons in both

performance and

database stability. Dive

into MySQL's architecture,

including key facts about

its storage engines Learn

how server configuration

works with your hardware

and deployment choices

Make query performance

part of your software

delivery process Examine

Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Gem Testing

Createspace Independent Publishing Platform
As Pagan Spain portrays midcentury Spain as a country of tragic beauty,

political oppression, and contradictions, Wright amalgamates at once polemic, travel narrative, history, and journalistic essay. He combines, as well, first-person narrative, eyewitness reporting, commentary, anecdotes, vignettes, and dramatic monologue. Pagan Spain, less a journalistic account of a people and an exotic locale than it is a sociological critique of a corrupt system of government, is a daring portrait of a country in turmoil.
