You've mastered the FAA handbooks and wrapped up one of the toughest orals of your flying career. You can now fly and talk at the same time, all from the right seat. You can create lesson plans, enter mysterious endorsements in student logbooks, and actually explain the finer points of a lazy eight. That's everything you'll ever need to know in order to flight instruct...or is it? This book is designed to help with all those "other" flight instructing questions, like why and how to become a CFI in the first place, and how to get your first instructing job. Where do flight students come from? And once you've got them, how do you keep them flying? How can you optimize your students' pass rate on checkrides? And how do you get flight customers to come back to you for their advanced ratings? Written by Greg Brown (author of The Turbine Pilot's Flight Manual and Job Hunting for Pilots), this Second Edition of The Savvy Flight Instructor provides nearly 20 years of additional wisdom, experience, and know-how, and includes new "Finer Points" contributed by industry experts. While this edition retains the key marketing, pilot training, and customer support concepts that made the original edition required CFI reading, those areas have been refined and expanded to incorporate the latest industry philosophies and techniques. Readers will learn how best to sell today's prospects on flying and how to utilize online marketing and social media. Greg Brown lays out tips for offering flight-instructing services with the sophistication of other competitive activities that beckon from just a click away on potential customers' computers and mobile devices. Aspiring flight instructors will learn why and how to qualify, and how to get hired once you

earn the certificate. There's extensive coverage of techniques for systematizing customer success and satisfaction policies, strategies for pricing and structuring flight training to fit today's market, integration of affordable simulation technologies into your training programs, and tips for coping with the "CFI shortage." Along with tips on how to attract and retain flight students, the author examines professionalism in flight instructing. In short, The Savvy Flight Instructor shows you how to use your instructing activities to increase student satisfaction, promote general aviation, and advance your personal flying career all at the same time. Contributing writers in the new "Finer Points" sections are Heather Baldwin (a commercial pilot and marketing writer), and CFIs Jason Blair (a designated pilot examiner), Ben Eichelberger (a flight training standardization expert), Dorothy Schick (flight school owner and marketing innovator), and Ian Twombly (noted flight-training writer and editor).

Plain Roots "O'Reilly Media, Inc."

The first monograph devoted to the legal status of religious minorities status accorded to dimm -s (Jews and Christians) in the Muslim law in the medieval Muslim west (the Maghreb and Muslim Spain). The

articles in this volume provide numerous examples of the richness and complexity of interreligious relations in Medieval Islam and the reactions of jurists to those relations. The studies brought together in this volume provide an important contribution to the history of imm -s in the medieval d r al-isl m, and more generally to the legal history of religious minorities in medieval societies. The central question addressed is the legal status accorded to imm -s (Jews and Christians) in the Muslim law in the medieval Muslim west (the Maghreb and Muslim Spain). The scholars whose work is brought together in these pages have dealt with a rich and complex variety of legal sources. Many of the texts are from the M lik legal tradition; they include fiqh, fatw -s, isba manuals. These texts function as the building blocks of the legal framework in which jurists and rulers of Maghrebi and Peninsular societies worked. The very richness and complexity of these texts, as well as the variety of responses that they solicited, refute the textbook idea of a monolithic imm system, supposedly based on the Pact of 'Umar, applied throughout the Muslim world. In fact when one looks closely at the early legal texts or chronicles from both the Mashreq and the Maghreb, there is little evidence for a standard, uniform imm system, but rather a wide variety of local adaptations. The articles in this volume provide numerous examples of the richness and complexity of interreligious relations in Medieval Islam and the reactions of jurists to those relations

This is the first volume in the English language to cover the entire range of the geology of Thailand since the joint Thai-US account by Brown et al. exactly 60 years ago. Over this period there has been a phenomenal growth in interest in this core area of SE Asia. This has been led by geologists in Thailand, but with important and highly significant

input from geologists based elsewhere in Asia and in Europe, Australasia and North America. Some of that research was prompted by commercial considerations, since Thailand has important energy and mineral resources, while other research has sought to understand better the stratigraphic and structural history, including the plate-tectonic story which Thailand's rocks reveal. This new volume seeks to bring together all of this knowledge into a single accessible book; it is the work of an international team drawn from Thailand, Japan, Australia, USA, Canada, Germany and the UK.

Side Impact and Rollover Princeton University Press

Taryn Clark thought she'd outgrown the need to find her birth mother. She thought that a successful career and a comfortable life in the city were enough to be happy. Did she really need to know about the woman who had given her away? Adopted at birth, her first few years were happy. It hadn't mattered that she didn't know her heritage; she had parents who loved her and wanted her. But divorce, and then death, ripped their tiny family apart, and at the tender age of six, she entered the foster care system. Over the next dozen years, she shuffled from home to home. Finding her roots seemed an impossible dream. But dreams are resilient. An unexpected discovery awakens old yearnings of belonging to a family, of being part of something bigger than herself. Finding the brief, ambiguous note from her birth mother is enough to unfurl the ribbons of hope still binding her heart. Her quest takes her to Lancaster County, Pennsylvania and the heart of the Plain community. Aided by her unique eye color, a healthy dose of luck, and the private investigator she hires, Taryn finds her birth family easily enough, but finding the truth is another matter. In all her musings, she never imagined a scenario where her mother might be Amish. She never imagined that the fabric of her life might be a patchwork of faith and fear, stitched together with a dark family secret. Taryn is determined to trace her roots, even if it means digging in the mud to do so. Now she's caught in the quicksand of a shocking discovery and the consequences of choices made, almost forty years ago. She'll risk everything to uncover the truth and to claim the family--and the roots--she so desperately craves.
